## 2. Business Review and Outlook

### Macro Economic Scenario

FY 2021-22 began with weaker growth outlook, amidst the Delta wave of COVID-19, after effects of the 2021 energy crisis, continuous supply disruptions, broad-based inflation prompting unplanned global monetary accommodation, sharp fiscal contraction in the US and China's real estate crisis.

With the escalation of Russia-Ukraine geopolitical tensions, the slow growth-high inflation trend got further exacerbated. However, while geopolitical risks continue, risk sentiments have improved lately as markets show willingness to downplay the Russia-Ukraine tensions.

Private demand and investment should be the focus for India in FY 2022-23 to steer growth. Nonetheless, despite the challenges, the Indian economy remains well placed over the medium term. E-way bills generation climbed to 7.8 crore in the month of March, 2022 as compared to the month of February, 2022 at 6.8 crore, indicative of recovery of business activity at a faster pace.

The average monthly gross GST collection for the last quarter of FY 2021-22 also increased to ₹ 1.38 lakh crore against the average monthly collection of ₹ 1.10 lakh crore, ₹ 1.15 lakh crore and ₹ 1.30 lakh crore in the first, second and third quarters respectively.

Further, the surge in imports indicated increased economic activity in the country. The focus on asset creation has helped, resulting in an increase in capital expenditure. The central government's market borrowing in the eleven-month period April - February, during FY 2021-22 has also been lesser by nearly 36%. Thus overall, the domestic economy is set to be on a better footing with some early signs of revival.

### Industry Update

The life insurance industry settled claims worth ₹ 60,000 crore in first nine months of FY 2021-22, as compared to ₹ 41,000 crore of claims settled in FY 2020-21. As an industry, we now see greater customer interest in life insurance policies, with the concept of human life value gaining relevance and an increasing adoption of digital services by customers.

During FY 2021-22, the life insurance industry collected ₹ 3,14,262 crore of new business premium and grew by 13% vis-à-vis the previous year. Further, private players grew by 22% and the overall industry grew by 16% in terms of Individual weighted received premium (WRP). Diversification within the savings segment and product innovation were the key drivers, enabled by expansion in distribution, resulting in further consolidation of private players' market share to 63% of the individual WRP business. Within the private sector, the top 10 insurers accounted for 87% of the market (in terms of individual WRP) in FY 2021-22, compared to 85% in FY 2016-17. Bancassurance sourced business continued to be the largest contributor with increasing focus on building strong proprietary channels.

Business mix continued to shift towards traditional products for the private players, with higher focus on non-participating savings and annuity products. The share of ULIPs increased owing to strong market performance in the middle of the fiscal year. Growth for individual

## Directors' Report

protection was muted due to supply side constraints like stricter underwriting norms and lack of centralised health database. However, protection is a long term opportunity and the segment is expected to expand in the coming years given the wide protection gap and pandemic induced awareness around financial protection. Group protection (credit life) registered healthy growth on the back of normalisation of disbursements by lenders.

This year was also a momentous year for the industry and us, where we announced acquisition of Exide Life Insurance Company Limited ("Exide Life") - the first M&A transaction in the life insurance industry. This first-of-its-kind transaction is a reflection of our intent to build a stronger India by expanding and providing financial safety-net to more people.

Overall, one should view the life insurance business as a structural multi decade opportunity where ability to innovate and leverage scale benefits will determine success.

### 3. Company Performance

#### Sustained growth across segments

In FY 2021-22, HDFC Life continued on its path to deliver NBM expansion and consistent performance while outpacing industry growth. We clocked a growth of 16% in individual WRP with a market share of 14.8% and 9.3% in the private and overall sector respectively. We continue to deliver consistent all-round performance and be ranked amongst the top three life insurers in the industry. Our 2 year CAGR of 17% was almost two times industry growth of 9%. Total new business premium increased by 20% to ₹ 24,155 crore. Total premium grew by 19% to ₹ 45,963 crore in FY 2021-22, on account of new business growth of 20% and 18% growth in renewal premium. We covered 54 million lives, registering an increase of 36% over FY 2020-21 and settled around 3.9 lakh claims during FY 2021-22.

#### Diversification and Innovation being the key themes across our business

All our channels recorded healthy growth and we continued to have a diversified distribution mix, which aided in providing multiple touch-points for the convenience of our customers. Our 372 branches are present pan-India bolstered by nearly 300 partnerships with banks, NBFCs, MFIs, SFBs, brokers, new-ecosystem partners, 1,06,597 individual agents and online platform access to our customers. Further, we continue to add renowned names such as South Indian Bank, ICICI Securities, Bajaj Finserv Direct, Thane Janata Sahakari Bank, Village Financial Services, amongst others to our distribution arm. We aim to expand our reach to a wider customer base through these partners.

All channels continued to perform well, with bancassurance growing by 13% this year and 21% on a 2 year CAGR basis. Proprietary distribution, which includes our agency, direct and online channels, has grown by 18% this year with a 11% 2 year CAGR, based on individual APE. Share of proprietary distribution increased to 33%, from 23% over the last 5 years. Our agency channel has grown by 26%. The channel added more than 40,000 agents in FY 2021-22, which is the second highest amongst private players. Our Agency Life initiative, aimed at capability development, continues to see healthy participation. In addition, there has been an increase of 30% in MDRT agents this year. Protection remained a key focus area within the group segment, contributing 43% of our group business. Akin to previous years, all our channels continued to be profitable.

We believe in maintaining a balanced product mix, with focus on increasing the share of protection and retirement products. This is in line with the evolving customer demand for long-term savings and protection products to provide financial security to their dependants and long-term income products including annuities to get post retirement income. Continuous product innovation, sales and service platform development and expansion of distribution has been key in this journey. We focus on ensuring that we have a relevant product suite that is able to address customer needs and gaps in current market offerings. During the year, we launched Sanchay Fixed Maturity Plan, a non-par savings plan with industry first liquidity features. We also rolled out our retiral product, Systematic Retirement Plan, which is a regular pay deferred annuity solution. Further, we introduced a bundled solution, QuickProtect which combines our Click2Protect protection plan and riders to offer cover against the 3Ds - death, disease and disability. Our participating savings, non-participating savings, ULIPs, protection and annuity segments contributed 30%, 33%, 26%, 6% and 5% to Individual APE respectively. Protection and annuity segments were at 14% and 5% of total APE.

Overall protection grew by 24% in terms of APE and 47% in terms of new business premium. This was largely led by a 55% growth in credit life new business premium, on the back of higher disbursements. On the individual side, demand continues to be healthy in terms of number of applications logged in. However, proportion of policies actually issued still remains a constraining factor at our end on account of tighter sourcing guidelines, lack of a centralised health database and underwriting challenges in tier 2/3 locations. With a combination of data analytics, insights into customer profiles and calibrated risk retention, we expect to be able to grow individual protection in FY 2022-23. Some of the initiatives taken by us in this space include development of an in-house automated underwriting engine, platform for

scheduling medicals in real time, facilitating video medicals and integrating technology to measure heart rate, BMI and other vitals using video input from the customer's mobile phone.

On the retirement side, our annuity business recorded 24% growth vis-à-vis industry growth of 3%. Annuities now contribute over a fifth of our new business premium. We have been able to nearly double our business in the last 3 years. We believe that protection and retirement solutions are multi-decade opportunities and will continue to grow faster than other segments.

### **Maintaining Profitable Growth**

Our renewal premiums recorded a steady growth of 18% with our 13<sup>th</sup> month persistency improving from 90% to 92% and our 61<sup>st</sup> month persistency improving from 53% to 58%. Further, 13<sup>th</sup> and 61<sup>st</sup> month persistency for limited and regular pay policies, was at 87% and 54% respectively, up from 85% and 49% in the previous year.

NBM for FY 2021-22 was 27.4% vs 26.1% for FY 2020-21. On the back of our robust growth and margin expansion, we delivered a value of new business for FY 2021-22 of ₹ 2,675 crore, 22% higher than FY 2020-21. Our Value of new business (VNB) has grown at a 24% CAGR over the past 5 years and has almost tripled in the last 5 years. Our EV as on March 31, 2022 was ₹ 32,958 crore (including Exide Life EV). We have been able to double our EV in the last 4 years. Operating return on EV, after factoring excess mortality reserve (EMR) created during FY 2021-22, was at 16.6%. Excluding EMR, operating return on EV would have been 19.0% as against 18.5% for FY 2020-21. We had an overall positive operating variance during the year, primarily on the back of favourable persistency experience and expense efficiency.

Our Profit after Tax (PAT) was at ₹ 1,208 crore for FY 2021-22, 11% lower than the previous year, due to elevated claims during the pandemic. However, post wave 2, our PAT in quarter 3 and 4 improved steadily, with PAT for quarter 4 registering a 12% y-o-y growth.

Solvency as on March 31, 2022, stood at 176%, post the cash payout of ₹ 726 crore to Exide Industries Limited, as part-consideration for acquisition of Exide Life. Solvency prior to the payout was 189%.

The operating expenses (Opex) to total premium ratio was stable at 12.3% during FY 2021-22, largely on account of healthy growth in revenue and cost control measures taken during the year. We shall continue to invest in strengthening our distribution and enhancing our technological capabilities to stay ahead of the curve, while calibrating costs at an overall level.

Our AUM stood at ₹ 2,04,170 crore, with a debt-equity proportion of 63:37 as on March 31, 2022, thereby recording a 17% growth over the previous year.

Our wholly-owned subsidiary, HDFC Pension Management Company Limited (HDFC Pension), has crossed ₹ 25,000 crore AUM milestone and ended the year with AUM of ₹ 28,414 crore. HDFC Pension has a market share of 37% as on March 31, 2022, making it the #1 private Pension Fund Manager (PFM) in terms of National Pension System (NPS) AUM. NPS is a significant feeder into our annuity business, growing at a rapid pace.

Exide Life, our wholly-owned subsidiary until the completion of its merger with us, recorded a healthy growth of 22% based on individual WRP in FY 2021-22, well-above the industry growth of 16%. Its EV as on March 31, 2022, was ₹ 2,910 crore. The merger process has been initiated with NCLT and is expected to be completed by the second-half of FY 2022-23. We continue to make progress in being able to seamlessly integrate both the businesses, post regulatory approvals.

We have also taken meaningful strides in our Environmental, Social and Governance (ESG) journey, signing up for the United Nations Principles for Responsible Investing (UN PRI) charter. With this, we also join the network of more than 4,800 signatories, in over 60 countries, working on a common goal of creating a sustainable global financial system. In addition, we launched 'Sustainable Equity Fund', which is available in our ULIP offerings. Our endeavour is to grow holistically and sustainably by continuing to invest in the five pillars of our ESG strategy, namely - ethical conduct, responsible investing, diversity, equity & inclusion, holistic living and sustainable operations.

### **Business Outlook**

We believe that the life insurance industry is poised to grow given the heightened awareness and importance of insurance as a financial protection tool.

Our objective remains to evangelise the need for financial protection whilst introducing new product offerings, maintaining an upward trajectory on NBM, delivering consistent growth in EV and adhering to a clearly articulated risk management approach.

Indian life insurance space is under-penetrated. Pandemic-induced awareness, expansion of insurance beyond salaried base and tier 1 locations, change in consumer behaviour, increasing adoption of technology and simplified claims processing would enable us to capture these multi decade opportunities. We have built a robust distribution machinery, enabled by technology, maintained a track record of sustained performance across business

## Directors' Report

cycles and thus are confident of creating value for all stakeholders going forward as well.

Also, on the regulatory front, our new IRDAI Chairman, Shri Debashish Panda, whilst unveiling his vision of Independent India being an Insured India, has constituted working groups of life insurers to help drive eight important themes. With this first of its kind initiative gathering pace, we are very optimistic of the prospects for our sector.

### 4. Products

A life insurance plan not only secures you and your family but also helps in achieving your financial goals, plan for your child's education, plan for your retirement, amongst other goals. It is our constant endeavor to offer products that meets customer life stage needs and helps them fulfill their goals. The Company has 39 individual and 13 group products in its portfolio, along with 7 rider benefits.

In April 2021, we introduced HDFC Life Saral Jeevan Bima, a Term Insurance Plan that protects your loved ones by offering a lumpsum benefit in case of any eventualities. The plan has single/ limited or regular premium payment options and policy term up to 40 years. The plan also offers additional protection through riders.

In July 2021, we launched HDFC Life Saral Pension, a single premium non-participating non-linked annuity plan. The plan is available on single and joint life basis, provides whole life annuity with return of 100% of purchase price on death. This plan offers annuity rates linked to the purchase price and an option to receive annuity monthly, quarterly, half-yearly or yearly. It also provides surrender value on diagnosis of a critical illness.

In October, 2021, we introduced HDFC Life Sanchay Fixed Maturity Plan, a plan that offers guaranteed returns in the form of a lumpsum benefit on maturity. The plan has flexible premium payment term options as single/ limited or regular pay and policy terms up to 40 years. It provides an option to choose cover on single life or joint life basis, optional riders to enhance your protection and provides enhanced maturity benefit for higher premiums. The death benefit multiple under single premium varies from 1.25x to 1.5x, 10x under single life and 10-15x under joint life depending on the age of the life assured. No medical examination is required under the point of sales person (POSP) variant.

In December 2021, we introduced HDFC Life Systematic Retirement Plan, a deferred annuity plan available under both individual and group categories. The plan offers guaranteed income for whole of life by paying premiums for a limited payment term, option to choose deferment period from 5 to 15 years. It has two plan options - Life Annuity and

Life Annuity with Return of Premium. It provides an option to receive annuity monthly, quarterly, half-yearly or yearly and also offers annuity rates linked to the purchase price.

We will continue our focus on developing innovative product propositions that focus on addressing customer needs at every stage of life.

### Human Resource and People Development

At HDFC Life, our people are the cornerstone of the Company's success and we continually offer them unique platforms to grow and become the best version of what they can be.

Our constant endeavor is to have a workforce that represents uniqueness of our society, and we mindfully create opportunities to bring this diversity on board and celebrate them the way they are. Diversity, Equity and Inclusion (DEI) is a way of doing business.

As an equal opportunity employer, our meritocratic and performance driven culture hails everyone irrespective of their backgrounds, education and experience. At the same time, we strive to create an equitable environment for women and LGBTQ+ community through our inclusive offerings. Our policies such as maternity transition program, second careers program, LGBTQ+ helpline, gender transition policy stand testimony to the Company's sensitivity towards life stages of a woman and LGBTQ+ and resultant support mechanisms.

To foster the spirit of care, we have built a supportive ecosystem of practices, processes and policies keeping in mind the challenges employees face while playing different roles, be it at work or at home. Some of these include flexible shifts, availability of crèche facilities, paternity leave, sabbaticals, coverage of legally wedded 'partner' or cohabiting partner of any gender under the Group Health Benefits program, etc.

To meet our ever-evolving business needs, we have focused on creating our homegrown talent pipeline. Our internal talent is given priority for career opportunities in the organisation. We encourage our employees to opt for cross-functional movements through career progression and internal job postings (IJPs), thereby broadening their professional exposure. Over the years, we have developed alliances with universities and academia to train and hire a model for our frontline sales roles. For managerial levels, our campus hiring program 'Jigyasa' continues to induct fresh minds from coveted business schools across the country. With digitisation being the core business requirement, our 'Graduate Trainee Programme' has been developed to build a robust new-age technology skill set.

We believe that values are the most critical elements that reflect the conduct of an organisation. In conjunction with clearly identified leadership behaviours, our organisation's values enable employees across levels to deliver on their responsibilities towards internal and external customers effectively. In addition, various scientifically designed assessment tools in external hiring and internal career advancement processes ensure that employees are aligned to these values.

We have designed and implemented various talent review and succession planning processes at our middle and senior management levels. Through several development initiatives, these managers are equipped to perform better in their current roles and build a strong pipeline of future ready talent.

We are committed to creating and sustaining a high-performance culture across the organisation. Therefore, our performance management system is deeply entrenched in the principles of the balanced scorecard. At the same time, our compensation philosophy ensures we benchmark ourselves with the external market to stay attractive as a potential employer. We ensure that we differentiate and reward high performance.

On the learning and development front, our mission is to meet the organisation's strategic needs by facilitating enterprise-wide capability development for employees and distributors. We have been enabling this by adopting a contemporary and progressive learning ecosystem.

### **Particulars of Employees**

The statement pertaining to particulars of employees pursuant to Section 197 of the Companies Act, 2013 (the 'Act') read with Rule 5(2) and 5(3) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 (including amendments thereof), forms part of this report. However, the above mentioned statement is not being sent to the members along with the Annual Report in accordance with the provisions of Section 136 of the Act.

The aforesaid information is available for inspection by the members up to the date of this Annual General Meeting ('AGM'), on all working days, during business hours, at the Registered Office of the Company. Members who are interested in obtaining the said particulars may please write to the Company Secretary.

The details of remuneration of Directors and Employees as required under Section 197(12) of the Act read with Rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 (including amendments

thereof), are given as an 'Annexure 4' and forms part of this report.

### **Investments**

FY 2021-22 started on a calmer note than the previous year. The successive COVID waves across multiple countries, though not all in a synchronised manner, ensured that the fiscal and monetary authorities continued to support their respective economies through expansive policies. Developed economies were able to provide larger fiscal and monetary support than the emerging economies. This helped the developed economies recover faster from the pandemic led contraction. The massive stimulus led a number of equity markets around the world to their all-time-highs.

While the large stimulus helped demand recovery across these economies, the supply side continued to be hobbled by disruptions in production and transport across the production chains stretching across the globe. A patchy supply response to the robust demand soon led to a rise in inflation. Central banks that were initially skeptical of the sustainability of the rise in inflation, soon had to change their stance and signal a reversal of the easy monetary policies to tame inflation. This change in stance by the large central banks led to hardening of bond yields as the markets factored in a rise in policy interest rates and withdrawal of liquidity, which triggered the initial bouts of volatility in the financial markets.

After the large FII inflows in the Indian equity markets during the previous year, FIIs withdrew more than ₹ 1.3 trillion from the domestic equity markets over the course of the year. The outflows accelerated during the second half of the year as the US Federal Reserve pivoted to a tighter monetary policy stance. The Russia-Ukraine war over the last two months of the year, also affected FII sentiments, as the sharp rise in commodity prices were expected to lead to a deterioration of India's macro parameters.

Domestic equity markets also set all-time-high levels during the year and also witnessed volatility thereafter in line with most large equity markets. However, despite the large FII outflows, the correction in the domestic markets was quite muted as domestic investors stepped up their equity investments. Domestic institutional flows topped ₹ 2.2 trillion during the year, which provided a strong counter to the impact of FII flows on the markets. Despite the correction in the domestic markets, total returns for the large cap indices, like the Nifty 50 and the BSE-100, were around 19%, while the mid-cap indices delivered around 25% returns in FY 2021-22.

## Directors' Report

Meanwhile, the fixed income markets had a year of moderate returns. As economies around the world gradually regained normal economic levels, markets started pricing in the withdrawal of the easy monetary policy measures leading to rising bond yields. The US 10-year treasury yields rose from 1.74% to 2.34% over the year. Domestic bond yields, too followed a similar trajectory. In addition to the expectations of the reversal of monetary policy, domestic bonds were under pressure due to the wider fiscal deficit as well. The higher deficit led to higher supply of government bonds, which was perceived to be far in excess of the market demand for the bonds. The RBI did intervene in the markets and purchased about ₹ 2.2 trillion of bonds during the year, which helped bridge some of the demand - supply gap and temper the rise in yields. In addition to the global bond yields and fiscal deficit, bond yields faced headwinds due to the rise in oil prices and other commodity prices like fertilisers, which further raised inflation concerns. Bond yields continued to stay elevated at the end of the year as the headwinds of wider fiscal deficit, rising inflation and rising bond yields continued to affect markets. The 10-year benchmark bond yield ended the year at 6.84% against 6.18% at the end of the previous year.

The investment funds of the Company were managed as per the stated objectives laid down in the Investment Policy, Asset-Liability Management Policy ('ALM Policy'), and respective funds' objectives. These policies lay down the asset allocation and risk appetite guidelines for different funds, some of which have in-built guarantees. Fund allocation is tracked on a regular basis and is backed with suitable assets. During the year, the asset allocation in the Company's conventional and shareholder funds was in line with the ALM Policy.

Your Company's total AUM as on March 31, 2022 was ₹ 2,04,170 crore. This comprised assets of ₹ 80,622 crore held under the unit-linked funds and ₹ 1,23,548 crore held under the conventional funds and shareholders' funds. The corresponding numbers for the previous year were ₹ 74,759 crore and ₹ 99,080 crore, respectively.

### Information Technology

Technology today is evolving and disrupting businesses at a pace never seen before. Blurring lines of business coupled with increased flow of information have created an ultra-competitive market place where it is important to continuously innovate, while being agile at the same time. Our technology strategy is based on the idea of 'reimagining insurance', as we continue to build and strengthen market-leading technology and digital capabilities with a customer first mindset, shaping the insurance operating model of tomorrow.

Over the last few years, we have transformed our business model from being product-centric to being customer-centric, on the back of our ability to constantly experiment with new and emerging technologies. Our investments in technology over the years enabled us to maintain business continuity during the pandemic by offering digital touch-points for claims, renewal collections and customer queries and accelerate digital selling with end-to-end digital customer journeys.

During the year, we further simplified buying journeys for protection plans, unit linked plans, point of sale plans and launched non-assisted pre-conversion verification checks. We extended key digital capabilities for some of our bancassurance partners and enabled end-to-end partner servicing through our digital platform. We also completed the complex migration of SAP and Enterprise Data Warehouse (EDW) to cloud and restructured our Group platform to make it more scalable to cater to increasing business volumes. These initiatives have helped us minimise business impact and stay ahead of the curve.

We believe that Artificial Intelligence (AI) and Machine Learning (ML) is the future of technology and will facilitate businesses to identify, assess and underwrite emerging risks and identify new revenue sources. Our in-house text AI capabilities have helped us build a strong Natural Language Processing (NLP) engine, which is the core of many applications for our customers and sales persons. We continue to enhance our ML models for underwriting, persistency and claims.

Given our emphasis on customer-centricity, we continue to invest in technology and digital assets to simplify customer service and engagement. At our branches, we now offer simplified service to our customers through InstaServ, which is used by our branch operations teams to fulfill over 70% of customer transactions. We have added Alexa bot Elsa and Google assistant bot Ezra to our repertoire of 24x7 customer touch points, which already include chat bot Elle, Twitter bot Neo, email bot SPOK and WhatsApp bot ETTY.

We have deployed 339 cognitive bots - almost half of them automating complex business processes - and impact 26 different functions. These cognitive bots bring in greater scale, efficiency and 24X7 service delivery, resulting in significant improvement in turnaround times as well as elimination of non-value add activities.

Our digital platforms and ecosystems offer us a way to tap new customer segments, providing us an opportunity to generate new profit pools in non-traditional ways. We continue to strengthen our one-stop retail platform Life99 through new technology enhancements. The platform has garnered over 950 corporate partnerships and 2,51,100

registered users. Through our Futurance programme, which is now in its third year, we continue to engage with start-ups in life insurance use cases.

We will continue in our pursuit for excellence in technology, which will help us differentiate ourselves in the marketplace. We have received multiple awards and accolades as a testimony to our efforts in the fields of technology and digital innovation.

**Re-imagining life insurance business, leveraging technology, simplifying processes and catering to continuously evolving customer preferences for delivering a seamless service experience:**

At HDFC Life, it is our endeavour to provide our customers with a personalised customer experience by leveraging technology. We started this journey a few years back and our operating model has evolved from being a traditional distributor and product play model to a matrix model comprising of platforms, digital channels, ecosystems and traditional avenues backed by technology and analytics.

In FY 2021-22, we aimed to provide our customer with a service experience that was available 24x7, instant, frictionless, accurate, personalised and proactive. Accordingly, we launched a series of initiatives towards providing our customers with an enhanced and differential service experience.

**Digitisation of Processes:**

The COVID-19 pandemic caused a paradigm shift in both organisational and customer preferences regarding the preferred mode of providing service. This accelerated our journey of migrating service options to digital touch-points. Accordingly, overall digital adoption for service interactions rose from 69% in FY 2020-21 to 85% in FY 2021-22. Primarily, customers who earlier preferred branch/ call centre/ e-mail interactions migrated to HDFC Life digital service avenues.

Various bots have been introduced to streamline processes across diverse service request categories, which has provided a hassle-free experience for customers and enabled straight-through processing for the organisation. These initiatives have reduced the processing time for requests and consequently reduced customer complaints. Digitisation and automation of operational processes led to substantial processing efficiency gains and reduction in overall transaction costs.

**InstaServ:**

To provide customers with a paperless experience and reduce dependence on our branch infrastructure, we

launched InstaServ - a mobility-based policy servicing and receipting application. It provides real-time processing of requests with authentication code-based customer verification for enhanced security.

Optical character recognition (OCR) capabilities have been incorporated to capture details based on cheque and demand draft payments. Accordingly, the turnaround time for policy servicing was reduced from 30 minutes to 5 minutes.

**Service BOTS:**

At HDFC Life, several customer queries and requests can now be resolved instantly at any time by deploying bots powered by artificial intelligence and machine learning capabilities. The BOTS are multi-lingual and operational across various platforms viz. Ety (WhatsApp), Elle (Website), Ella (Facebook), Neo (Twitter), Alexa and Google Assistant.

Over 330 queries types and 40 types of service transactions are operational using these BOTS, which are user-friendly and convenient for customer access at any time.

As a part of our proactive connect campaign, we reach out to customers and deploy automated AI-based interactive voice solutions for faster resolution of customer service requests. This has reduced the turnaround time for processing service requests and averted potential customer complaints.

**Service e-mail:**

At HDFC Life, we identified an opportunity to streamline the process of responding to customer queries received via e-mail. Accordingly, SPOK - a home grown bot was deployed for identifying and responding to queries that could be responded without manual intervention. It uses a neuro linguistic programming (NLP) engine to respond to e-mail queries.

**Quality of business:**

HDFC Life's values include 'Integrity' as the core value for every employee. The Company has laid down a well-defined framework to ensure that the values are inculcated at all levels starting from senior management at the central offices to grass root levels across all zonal and regional offices.

- Quality of new business and mis-sale related issues have been the largest contributor to complaints across the Life Insurance industry. Several initiatives and checks have been put in place to ensure reduction in mis-sale complaints.

## Directors' Report

- AML & KYC scrutiny checks have been strengthened, pre-conversion verification checks done and all issuances done as per Company underwriting guidelines. Several checks and balances have been institutionalised at our insurance intermediaries' end as well.
- A malpractice matrix covering various types of malpractices and actions to be taken against erring agents/ employees and intermediaries (caution/ warning/ termination) has been formulated.
- HDFC Life has an in-house analytics team, which has developed intelligent prediction models to assess the risks associated at policy level.
- As part of our customer awareness agenda, regular alerts are sent to our policyholders to drive awareness and emphasize that they should not fall prey to false commitments and spurious calls.

## ANNEXURE - 1

# Report on Corporate Governance for the financial year ended March 31, 2022

### Corporate Governance at HDFC Life Insurance Company Limited

Your Company believes that Corporate Governance is an integral element of any responsible company and the Corporate Governance of your Company is a reflection of its core values and principles, encompassing its culture, practices, policies and relationship with its stakeholders.

At HDFC Life, the Corporate Governance philosophy is based on the basic principles of integrity, transparency, accountability and adherence to the highest standards of governance and regulatory compliance. Your Company strives for the highest standards of ethical and sustainable conduct of business to create enduring values for its stakeholders. These principles have evolved over the years and helped the Company in reflecting its core values and practices in all its business conduct even during the testing times of global pandemic, which sets a new normal for all of us. Your Company relies on its principles to be resilient and agile in adapting to the evolving situation. Your Company believes that each of the principle helps in developing the right corporate culture and standards that fulfils the true purpose of the Corporate Governance.

At HDFC Life, Corporate Governance is ensured through taking ethical business decisions and conducting business operations with a firm commitment to values while meeting expectations of its customers, agents, shareholders, regulators and society at large.

Your Company believes that the core principles of Corporate Governance enable it to infuse trust and confidence among its stakeholders (viz., customers, agents, security holders and regulators, etc.) to meet their aspirations. It believes in continuous evolution of its systems, practices, procedures and the way of doing business in most ethical and sustainable manner to meet the various challenges posed on account of changing business environment and stakeholders' expectation.

The Company's Board of Directors ("Board") consists of eminent individuals having expertise and experience in various fields which enables it to ensure highest standards of Corporate Governance. The Board and its Committees play a crucial role in overseeing how the management is focusing on achieving the business objectives while ensuring sustainable growth.

The Company's Code of Ethics and Conduct ("the Code") is an extension of its values and reflects its continued commitment in ensuring ethical business practices and procedures across its operations. The Board and the entire Senior Management team abide by the Code and periodically affirm compliance with the same.

In line with the foregoing, and in order to ensure compliance with the applicable regulatory requirements including Corporate Governance Guidelines prescribed by the Insurance Regulatory and Development Authority of India ("IRDAI") and those prescribed under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), your Company has formulated the 'Corporate Governance Policy', which acts as a guide to the Company and the Board to implement best practices in Corporate Governance.

#### v) **Prevention and Redressal of Sexual Harassment (PRSH)**

The Company has instituted an Apex Committee and four Zonal Internal Complaints Committees (ICCs) for redressal and timely management of sexual harassment complaints. The central Apex Committee is chaired by a senior woman leader of the Company. The Committee also has an external senior representative member who is a subject matter expert. All zonal ICCs have minimum of 50% women representatives, and their functioning is overseen by the central Apex Committee. The Risk Management Committee is periodically updated on matters arising out of the PRSH Policy/Framework, as well as on certain incidents, if any.

The details regarding number of complaints on sexual harassment of women at workplace are provided in the Directors Report.

#### vi) **Cyber Security**

The changing Cyber Security threat landscape and data privacy demands a different view on Cyber Security strategy which is agile, flexible and supports business without any disruption.

The Company ensures that Cyber Security is managed as part of critical business strategy and corporate risk management which gets active participation at Board level. The Company is making increasing use of emerging technological tools and digital services, or forming partnerships with third parties that provide these capabilities. As the Cyber Security landscape continues to evolve, it's crucial to maintain awareness and adjust security strategies accordingly. The Company focuses on finding a balance between spending on response and training as well as pre-emptive defence and detection.

#### **Cyber Security and Cyber Security Council**

Cyber Security continues to remain a high priority on the agenda of Board and Risk Management Committee, due to the increase in potential threat landscape and the impact it can have on the business. This is continually monitored by a separate Information & Cyber Security Council.

The Company's Information Security Group continues to align with ISO Standards, National Institute of Standards and Technology (NIST) and Federal Financial Institutions Examination Council (FFIEC) based Cyber Security Framework for Risk Assessment which categorises the risk and provides visibility on the maturity level of the organisation. This framework is a risk-based compilation of guidelines designed to help organisations assess current capabilities and draft prioritised roadmap toward improved Cyber Security posture.

Multiple initiatives and new projects were implemented in the Company to make sure there is minimum business service disruption with Information Security. The Company's Cyber Security strategy had to re-adjust to the changing dynamics during COVID-19 and also had to roll out Cyber Security initiatives as per the planned roadmap for the FY 2021-22 as mentioned below.

#### **Comprehensive Application Security Management**

We follow a proactive strategy which is more aligned to emerging threats by addressing vulnerabilities before they are misused for any cyberattack

#### **Threat Defence with Anti-Bot intelligence**

We strengthened our network defence to not only block threats on the basis of behaviors but also consider geographic location, reputation and malicious connections thereby reducing the overall attack surface.

## Report on Corporate Governance for the financial year ended March 31, 2022

### Active Directory (AD) Security

AD security deployed at HDFC Life continuously provides real-time risk assessment and audit trail, behaviour patterns and more to detect and react to threats faster.

In addition, we have streamlined the Security Assessment and Penetration Testing process for improved coverage and correlation for Risk Informed decision making. We have also beefed up the perimeter defence that will be integrated with multiple defences for increased visibility and protection.

Considering evolving cyber threat landscape, demanding regulatory requirement and meeting expectation of the board, continuous key security initiatives to address threats and minimise risk have been planned for FY 2022-23.

### Cloud Security

The Company is aware of the threats and risks that cloud can pose. Cloud Security plays a significant role in controlling threats due to identity and access management mis-configurations. Relevant cloud native services have been considered to bolster our security posture. The broader objective of a cloud

security practice is to ensure that the critical data, applications and technology are safeguarded.

IRDA/F&A/GDL/LSTD/154/08/2016 dated August 5, 2016 requires the Company to make following disclosures on remuneration on an annual basis in the Annual Report:

**A. Qualitative Disclosures****i Information relating to the design and structure of remuneration processes is given below:**

The Nomination & Remuneration Committee ("the Committee") is the body which oversees the remuneration aspects. The functions of the Committee include reviewing and approving, on an annual basis, the corporate goals and objectives with respect to the compensation for the Chief Executive Officer/Whole Time Directors. The Committee also evaluates at least once in a year the Chief Executive Officer's/ Whole Time Director's performance in light of the established goals and objectives and based upon these evaluations, set their annual compensation, including salary, bonus, equity and non-equity incentive compensations. The compensation

## Report on Corporate Governance for the financial year ended March 31, 2022

structure is within the overall limits as laid down by the members of the Company, and further subject to statutory and regulatory approvals including that of the IRDAI or such other body or authority as may be applicable.

The Company has under the guidance of the Board and the Committee, followed compensation practices intended to drive meritocracy and fairness. The Committee has oversight over compensation and defines Contribution Management System (CMS) and Variable Pay for Performance (VPP) philosophy for Executive Directors and the organisational performance norms for VPP based on the financial and strategic plan approved by the Board. The Committee assesses organisational performance as well as the individual performance for Executive Directors. Based on its assessment, it makes recommendations to the Board regarding compensation for Executive Directors and employees, including senior management and key management personnel.

### Objectives of Remuneration Policy

The purpose of the remuneration policy is to put in place a framework for remuneration of Directors, Key Managerial Personnel and other employees, keeping in view various regulatory and other requirements. This policy is guided by the set of principles and objectives as particularly envisaged under Section 178 of the Act, which *inter-alia* includes principles pertaining to determining the qualifications, positive attributes, integrity and independence of Director etc.

### Key features of Remuneration Policy

**Attract and retain:** Remuneration packages shall be designed to attract high caliber executives in a competitive global market and remunerate executives fairly and responsibly. The remuneration shall be competitive and based on the individual responsibilities and performance.

**Motivate and reward:** Remuneration is designed to motivate delivery of the Company's key business strategies, create a strong performance orientated environment and reward achievement of meaningful targets over the short and long-term.

**Non-monetary benefits:** The Executives will be entitled to customary non-monetary benefits such as company cars and company health care,

telephone etc. In addition thereto, in individual cases company housing and other benefits may also be offered.

### ii. Description of the ways in which current and future risks are taken into account in the remuneration process

The Company ensures the effectual positioning of the compensation in line with the overall risk framework of the organisation. Different aspects of remuneration have been designed to ensure their applicability over a timeframe and cover the associated risks.

- The total compensation is aligned to the pre-defined balanced scorecard covering the people, financial, customer and operational indicators of performance.
- The compensation payouts are regulated by compliant guidelines of the Malpractice matrix under the enterprise risk management framework of the Company. Deferred payouts are guided and controlled by the framework in cases of integrity or any such related parameter.
- Significant component of the remuneration are spread across the time horizon risk in the form of Short Term and Long Term Incentive Plans.

### iii. Description of the ways in which the insurer seeks to link performance during a performance measurement period with levels of remuneration

The Company follows a compensation philosophy of pay for performance and meritocratic growth in the organisation. There is linkage between pay and performance. In line with Company's pay for performance philosophy the compensation is designed to ensure that every employee will have at least a part of the total Compensation which will be linked to individual and / or Company performance. For senior management, the variable payouts depend upon the individual contribution and overall performance of the organisation. The performance is assessed on predefined balanced scorecard and the payout rate varies with the level of performance where significant merit increase and variable payouts are awarded to top performers. The organisation strives for higher variable pay at senior levels thereby ensuring more focus on performance driven payouts.

**VII. Transfer of unclaimed dividend and corresponding shares to Investor Education and Protection Fund:**

In accordance with the provisions of Sections 124, 125 and other applicable provisions, if any, of the Act, read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 (hereinafter referred to as "IEPF Rules") (including any statutory modification(s) or reenactment(s) thereof for the time being in force), the amount of dividend remaining unclaimed or unpaid for a period of seven years from the date of transfer to the Unpaid Dividend Account is required to be transferred to the Investor Education and Protection Fund ("IEPF") maintained by the Central Government.

## General Shareholder Information

In accordance with Section 124(6) of the Act, read with the IEPF rules, all the shares in respect of which dividend has remained unclaimed/ unpaid for a period of seven consecutive years or more from the date of transfer to the unpaid dividend account were required to be transferred to the demat account of the IEPF Authority.

The Company had sent notices to all such members in this regard and also published a newspaper advertisement and, thereafter, transferred the unclaimed shares to IEPF during FY 2021-22.

The details of unclaimed dividends and equity shares transferred to IEPF are as follows:

Year	Amount of unclaimed dividend transferred	Number of equity shares transferred
2021-22	₹ 9,287.60	-
2020-21	₹ 13,055.00	1,269

Further details of unclaimed dividends including dividend and shares transferred to IEPF are hosted on the website of the Company - <https://www.hdfclife.com/about-us/Investor-Relations>.

Shareholders' whose dividend and/or shares have been transferred to IEPF, can claim the same after following the procedure prescribed by the Ministry of Corporate Affairs which is available on the website of IEPF i.e. [www.iepf.gov.in](http://www.iepf.gov.in).

During the year, the Company undertook the following initiatives to reduce the quantum of overall unclaimed dividends:

- annual reminders were sent to the concerned shareholders to claim dividend; and
- directly credited the unclaimed dividend to the shareholders' accounts, who had updated their bank details with the Company/ depositories.

### The details regarding unclaimed dividend(s) along with the due date(s) for transfer to IEPF are given below:

**ANNEXURE - 2****Annual Report on CSR Activities****1) Brief outline on CSR Policy of the Company**

HDFC Life Insurance Company Limited (“HDFC Life” / “Company”) is committed to making a positive impact in sectors such as Education and Livelihood, Healthcare and Sanitation, and Environmental Sustainability. Under its social umbrella of ‘Swabhimaan’, the Company reaches out to disadvantaged communities to empower them.

The Company, as a responsible Corporate Citizen, contributes to nation building through its CSR projects/programmes, in true letter and spirit, as enshrined in the Act. All CSR interventions are conceived and implemented through a focused approach towards target beneficiaries for generating maximum impact. The CSR initiatives of the Company are carried out either in partnership with credible implementing agencies or directly through projects executed by project management teams.

The CSR Policy of HDFC Life has been designed in consonance with Section 135 of The Companies Act, 2013, to lay down the guidelines for undertaking CSR initiatives of the Company in accordance with the Companies (Corporate Social Responsibility Policy), Rules, 2014 as amended from time to time.

‘Swabhimaan’ interventions are aligned with the UN Sustainable Development Goals (SDGs). There is a strong connection with the brand’s core emotion that revolves around ‘Pride’ or ‘Sar Utha Ke Jiyo’, representing the philosophy of enabling individuals

to live with their head held high by making them financially independent.

Employees can make a difference to society. Every employee is encouraged to volunteer and contribute towards various social causes that they pledge for. The Swabhimaan Agent of Good employee volunteering program is designed to enable all to participate in socially relevant and beneficial projects that allow them to collaborate in their eco-systems and contribute to the society, acting as change-makers.

The CSR Policy and details of projects/programmes undertaken are available on the Company’s website at: <https://www.hdfclife.com/about-us/csr>.

The ‘Swabhimaan’ interventions are in line with Schedule VII of the Companies Act, 2013 and the CSR framework includes:

- Education and Livelihood
- Healthcare and Sanitation
- Environmental Sustainability
- Other Initiatives

The ‘Swabhimaan’ projects/programmes are identified and assessed by the CSR Monitoring and Evaluation team, and post their due diligence is recommended to the Internal Committee and finally presented to the CSR Committee for directions and approvals.

# Management Discussion and Analysis

## A. MACROECONOMIC TRENDS

FY 2021-22 was a challenging year. The first quarter witnessed the devastating second COVID wave. Economic recovery from this wave was faster with dynamic and more targeted restrictions based on movement in infections count.

The roll-out of the vaccination program was accelerated and broad based during the year, leading to higher coverage of the population. The government started vaccination drives for youngsters in the age group of 12 years and above and administration of booster doses. These developments helped curtail the mortality impact of the more transmissible Omicron variant. Increase in inoculation restored economic activity and improved business sentiment.

The quarterly GDP growth of 20.1%, 8.4% and 5.4% in the first three quarters of the year reflected the base effect of restricted activity in FY 2020-21. At an aggregate level, the economy surpassed the pre-COVID levels during the year. The annual GDP growth for the year FY 2021-22 is forecasted at 8.9% versus the 6.6% contraction in the previous year.

The gradual recovery of the economy was evident in other economic parameters as well. Fiscal deficit for FY 2021-22 was pegged at 6.9% of GDP against 9.2% of GDP in the previous year. The Government estimated a deficit of 6.4% of GDP for FY 2022-23 with the aim to continue to support the economy through stepped up spending, especially on the infrastructure sector.

The geo-political developments during the last quarter of the year have had a bearing on the economy. The outbreak of war between Russia and Ukraine led to a sharp rise in commodity prices, as both Russia and Ukraine are large

exporters of commodities such as oil & gas, fertilisers, chemicals, food.

Consumer inflation picked up sharply at the end of the year, as the improved demand after the resumption of full-fledged economic activities added to supply side pressures due to disruptions in production as well as the commodity price rise. However, swift recovery and improved tax compliance helped bolster the revenue collection. The average monthly gross GST collection for the last quarter of the financial year increased to ₹ 1.38 lakh crore.

Despite the challenges, the Indian economy is on a better footing with some early signs of revival. Government borrowing in the eleven month period April-February, during FY 2021-22 has also been lower by nearly 36 percent. Private demand and investment would be the focus for India in FY 2022-23.

### Outlook on the Life Insurance Industry in India

The life insurance industry settled claims worth ₹ 60,000 crore in first nine months of FY 2021-22, as compared to ₹ 41,000 crore of claims settled in full year FY 2020-21.

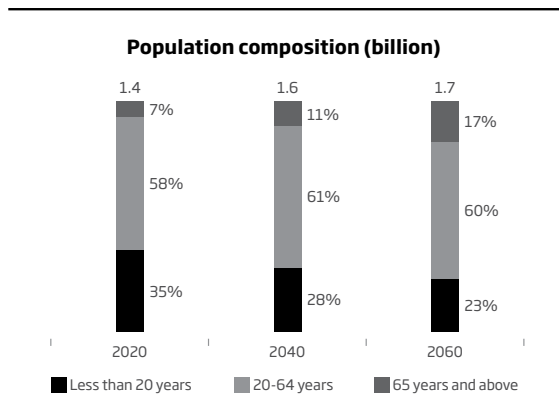

The pandemic has led to higher awareness about the need for protection and the inadequacy of current insurance coverage. Life insurance has emerged as a prominent theme to protect one's family, whilst securing long-term financial health. As an industry, we see higher customer interest, with the concept of human life value gaining relevance and an increasing adoption of digital services by customers.

Insurance remains a multi decade opportunity in the Indian context and insurers are well poised to unlock the long-term growth potential of the industry.

Some of the growth drivers are elaborated below:

## Key Opportunities

### I. Changing demographic profile

Source: MOSPI, United Nations World Populations Prospects Report (2019)

India is the second-most populous country in the world and amongst the youngest, with a median age of about 28 years. The life insurance industry helps in mobilisation of long-term savings, provides protection and long-term income and annuity solutions. Each of these segments has different demand drivers and India's changing demographic profile bodes well for the industry. The proportion of insurable population (people between the ages of 20 and 64) is expected to touch almost 1 billion by

2035, thus outlining the need for long-term savings and protection plans.

The emergence of nuclear families and advancement in healthcare facilities has led to increase in life expectancy, leading to a higher need for pension and protection based products. Further, as awareness grows with respect to the need to protect one's family, one can expect demand for protection products to continue being robust in the years to come.

## II. Low insurance penetration

1. Penetration as measured by premiums as % of GDP.

2. Density defined as the ratio of premium underwritten in a given year to the total population

Source: Swiss Re report (Based on respective financial year of the countries)

As compared to other developed economies, India remains vastly under-insured, both in terms of penetration and density. The macroeconomic factors such as growth in GDP and rise in per capita income, coupled with rising awareness about need for life insurance, higher financial savings as a percentage of GDP, increasing urbanisation and increase in digitalisation would continue to aid the growth of the Indian life insurance sector.

The 'protection gap' in India is amongst the highest in the world at 83%, as growth in savings and life insurance coverage has lagged economic and wage growth. The increase in disposable income, coupled with pandemic-induced awareness of protection products shall help increase penetration levels. Increasing retail borrowing in the country and widening lines of businesses (i.e. beyond mortgages) is expected to spur need for loan linked protection products.

India's pension market is under-penetrated at 9.3% of GDP

Improvement in life expectancy will lead to an average post retirement period of 20 years

Source: OECD Statistics 2020; UN Population estimates

## Management Discussion and Analysis

Retirement and Pensions is an equally large opportunity given India's changing demographic profile, increase in life expectancy and the lack of a formal social security system for the wider population. As per a study by UN, the share of population over the age of 60 is projected to increase from 8 per cent to nearly 20 per cent in 2050. India also recorded an improvement in life expectancy at birth, which was 60 years in 1994, growing to 69 years in 2019. Further, in comparison to global benchmarks, India's pension market is under-penetrated at 9.3% of the GDP. This provides insurers an opportunity to offer long-term income and annuity solutions.

### III. Financialisation of savings

Life insurance AUM has grown by 15% in FY 2020-21 higher than the growth in FY 2019-20, indicative of increased financialisation of savings. The life insurance industry is uniquely positioned to cover a range of customer needs across fixed income and equity platforms. Over time, higher personal disposable incomes resulting in higher household savings is likely to be channelled into different financial savings instruments including life insurance.

The government has also taken initiatives to promote financial inclusion and helped increase insurance awareness including setting up of small finance banks and payments banks and offering low cost insurance schemes.

### IV. Digitisation

Changing technology is disrupting businesses rapidly. Customer behaviour is evolving as quickly, hastening the need and importance of providing a frictionless end-to-end buying experience to customers. Technology and data will be key for driving new business, customer service, claim payouts as well as risk management. Online or Digital is no longer a channel, but a way of doing business and servicing customers. The pandemic has further accelerated adoption of technology across multiple lines of business.

Given higher digital adoption by customers and distributors, it has become imperative for insurers to develop strong technological capabilities and highly efficient platforms, which are powered by analytics, automation and artificial intelligence. Seamless integration of these platforms and processes with the partners' systems is a necessity. The customers' expectation of a personalised and improved service experience can be addressed by the use of artificial intelligence, cloud computing, machine learning algorithms and bots.

### Risks and Concerns

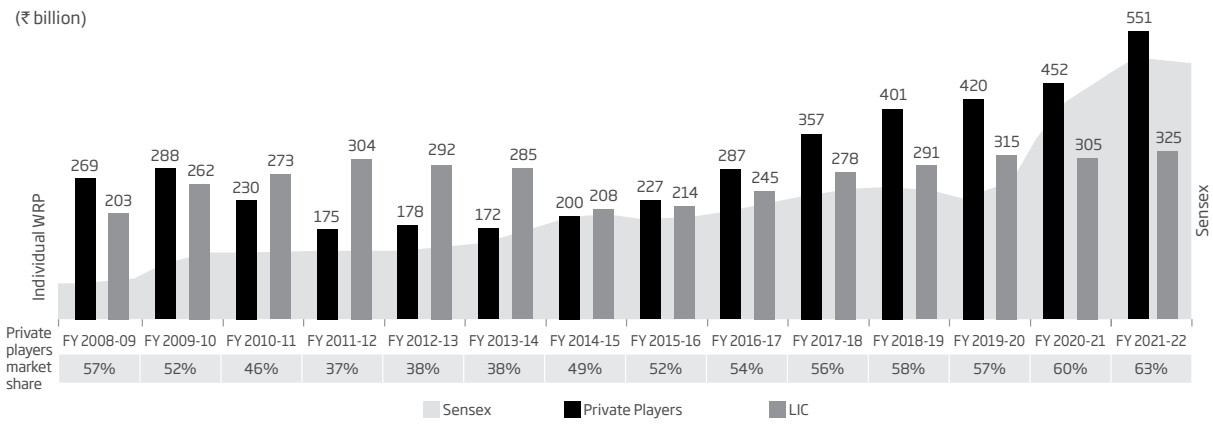

The life insurance industry faces a number of risks primarily due to rapidly evolving customer behaviour, changing demographic profile, increasing competition and dynamic macroeconomic conditions. The financial conditions and future prospects of companies may be significantly affected by factors such as market fluctuations, changes in tax rates or in interest rates. Risks also exist in the form of a change in relationship with key distribution partners. While some risks are controllable, others are non-controllable like the ongoing geo-political unrest that poses short-term challenge to the industry in terms of inflation and erosion of disposable income.

Our enterprise risk management framework details the governance and management of all aspects of risks we face (Refer Audit & Risk Management chapter of the report).

## B. LIFE INSURANCE INDUSTRY OVERVIEW

### I. Overview

The life insurance industry has evolved over the past two decades post entry of private players with significant changes in distribution strategy as well as the product portfolio and technology becoming a key enabler.

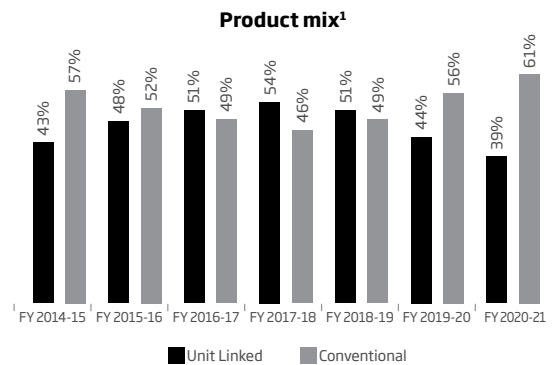

During FY 2021-22, the life insurance industry clocked 13% growth and collected new business premiums of ₹ 3,143 billion as against ₹ 2,783 billion in FY 2020-21.

Private insurers grew by 22% in individual business, while group business saw a growth of 23%. The market share of the private insurers in the individual business was at 63%, up by 316 bps in comparison to FY 2020-21. Development of multiple channels of distribution and product innovation have been the key drivers for the growth in market share of private insurers in the individual business, which has increased from 37% in FY 2011-12 to 63% in FY 2021-22.

Within the private sector, the top 10 insurers accounted for 87% of the market (in terms of individual WRP) in FY 2021-22. Distribution arrangements with large banks and growth in proprietary channels have been key drivers for most of the large insurers.

### II. Product Mix across Private Insurers

Source: 1. Based on Overall WRP (Individual and Group)

In the last few years, private insurers have increased their focus on the under-penetrated protection segment, both within the individual and the group segments. Focus on the retirement space has also increased. The pandemic induced awareness for the need for higher insurance and long-term wealth creation led to a further diversification in the long term savings segment.

## Management Discussion and Analysis

### III. Distribution Mix across Private Insurers

Source: 1. Based on Individual New business premia for all private players

There has been a steady shift in the distribution mix over time - the business sourced by the bancassurance channel has gradually increased with expansion in number of branches and widening reach across India. The implementation of open architecture by some of the larger banks has enabled more insurers to achieve scale while also presenting the customer with more product choices.

Increasing digital awareness, coupled with the government's drive towards digitisation, is helping Online emerge as a key distribution channel, especially for younger customers. Role of technology in conventional distribution channels continue to increase. Insurers are also tying up with partners within the non-traditional ecosystem (e.g. e-commerce companies, fintech, cab aggregators) to diversify their distribution mix further. Share of Agency channel has declined over time, despite number of agents increasing from FY 2014-15 to FY 2021-22.

## D. STANDALONE PERFORMANCE OVERVIEW

HDFCLife(theCompany)hasdeliveredstrongperformance across key performance metrics despite disruptions caused by the COVID-19 pandemic. In line with the stated long-term strategy, it continued to drive business and create value for key stakeholders by maintaining a balanced and profitable product mix, diversified distribution, continuous product innovation, reimagining insurance through effective use of technology and catering to continuously evolving customer preferences. The standalone results presented below includes detailed analysis across the key financial parameters tracked to assess the performance.

In light of the pandemic and based on the information available up to the date of approval of the financial results for FY 2021-22, the Company has reassessed the impact of pandemic on its assets, including valuation and impairment of investments. The financial statements as at the Balance Sheet date reflect appropriate adjustments based on such evaluation.

### I. Our Business Segments:

#### Lines of Business:

We offer long-term savings, protection and retirement or pension products. These products are grouped under three segments Participating (Par), Non-Participating (Non Par) and Unit-Linked (UL). Brief descriptions of each product segments are detailed below:

#### 1. Non Linked segments:

Non-linked segment comprises the traditional products that offer reasonable insulation from market risks. The non-linked segment is split into participating and non-participating segments.

#### a) Non-Linked Participating segment:

This segment covers insurance contracts that participate in the surplus generated from the segment, during the term of the contract. The policyholder is entitled to 90% of the surplus generated from this segment, which is added to the policy as bonuses. The shareholders' share of surplus is one-tenth of the bonus declared for the policyholders. The balance surplus, if any, in the segment is accumulated under the head 'Funds for future appropriation' in the balance sheet for future distribution to policyholders and shareholders. Products under this segment

include endowment, savings cum protection and pension plans.

#### b) Non-Linked Non Par segment:

This segment covers insurance contracts, which do not participate in the surplus generated from the segment. The policyholder is entitled to the sum assured with/ without guaranteed return or periodic annuity or lump sum payment, depending on the type /terms of the contract. The surplus arising from this segment is transferred to Shareholders' Profit & Loss Account on recommendation by the Appointed Actuary of the Company. Products under this segment include term protection, savings cum protection, immediate and deferred annuity and health plans under Individual business and credit life, term life, fund based pension, group variable plans under Group business.

### 2. Unit Linked segment:

This segment covers insurance contracts that are investment cum protection plans that provide returns directly linked to the market performance of the underlying fund. The investment component of the premium is invested in unit linked funds as per the choice of the policyholder. The investment risk is borne by the policy-holder. These contracts have charges, which are periodically deducted from the relevant funds. The policyholder is entitled to the fund value or sum assured, whichever is higher, or fund value and sum assured, on the completion of the contract. The surplus arising from this segment is transferred to Shareholders' Profit & Loss Account on recommendation by the Appointed Actuary of the Company. Products in this segment include Life and Pension plans under Individual and Group businesses.

## II. Performance of our Standalone Financial Statements:

### A) Income statement analysis:

Focus on technology and customer centricity enabled us to maintain business continuity during the pandemic. Reported gross premium income witnessed growth of 19%, with growth in both individual and group businesses. In comparison, operating expenses grew by 22% due to business growth and expense normalisation. We reported a Profit after Tax (PAT) of ₹ 1,208 crore during FY 2021-22.

Gross written premium increased by 19% from ₹ 38,583 crore in FY 2020-21 to ₹ 45,963 crore in FY 2021-22.

**a) Individual New Business Premium:**

Individual new business premium grew by 16% from ₹ 10,076 crore in FY 2020-21 to ₹ 11,640 crore in FY 2021-22. Despite the impact of wave 2 in the first half of the year, we witnessed an upswing in the savings business on a sequential basis, as more and more customers continued to secure their financial needs as well as protect their loved ones. The non-participating segment witnessed a 16% growth driven by the launch of new products and continued momentum in Annuity business while the unit linked segment grew by 29%. Over 9 lakh new policies were added during the year.

**b) Group New Business Premium:**

Group new business premium grew by 25% from ₹ 10,031 crore in FY 2020-21 to ₹ 12,515 crore in FY 2021-22, led largely by growth in group credit protect and group annuity business. The rise in credit life business during the year is in line with increase in credit disbursement.

**c) Renewal Premium:**

Renewal premium grew by 18% from ₹ 18,476 crore in FY 2020-21 to ₹ 21,808 crore in FY 2021-22, on the back of higher new business growth in the previous year and improvement in persistency. The 13<sup>th</sup> month persistency improved from 85% to 87%.

Growth in premium was primarily driven by the focus on meeting customer needs through diverse and innovative products and a multi-channel approach. The product portfolio consists of 39 retail and 13 group products, along with 7 rider benefits covering

savings, investment, protection and retirement needs of our customers.

The COVID-19 wave 2 resulted in fewer physical interactions and branch visits by customers in the first quarter of the year. The technology platforms played a pivotal role in accelerating digital servicing and sales without compromising safety.

**Distribution channel mix :**

A diversified and multi-channel distribution network enabled us to service our customers effectively and adapt to changes in the external environment. We believe that we offer attractive value propositions to our distribution partners. A testament to the same is our longstanding relationships with various partners.

Bancassurance is the largest channel and contributes about 60% of our new business (individual APE). Our partners have extensive distribution networks, providing us with significant opportunities to expand our market reach and access new customers. In the environment of open architecture and the constant endeavour to provide customers with more choice, we strive to be a preferred partner across all our distribution channels.

We are also focused on developing and strengthening our proprietary distribution channels, namely, Agency, Direct and Online. They contribute about one third of our individual new business APE.

- Our Agency channel comprising 1,06,597 agents continues to gain traction and scale, with focus on profitable product mix and improving quality of business. We primarily sell long-term savings and protection plans through this channel. The focus is on recruiting high quality agents, providing appropriate training, improving productivity and earnings.

## Management Discussion and Analysis

- Our Direct sales channel is engaged in selling our products to customers without the involvement of any intermediaries. This channel is designed to up-sell and cross-sell to our base of existing customers by leveraging analytical tools to determine customer preferences. We have a multi-dimensional approach covering branch walk-ins, tele-sales and digital touch points.
- Our advanced online customer platform is user-friendly and customer-centric. It guides our customers and distribution partners right from on-boarding to policy issuance. Through this channel, we are able to tap into a younger customer segment and expand our geographical presence, especially in non-metros.

Another emerging distribution channel for us is the new age ecosystem partners from a diverse range of industries, ranging from e-commerce players like PhonePe to healthcare providers like Apollo Health and Lifestyle. We believe that non-traditional distribution partnerships have great potential, given the wider customer access and a significantly under-penetrated life insurance market.

### ii. Reinsurance ceded:

The Company partners with the reinsurers to share underwritten risk. The reinsurance premium ceded increased from ₹ 461 crore in FY 2020-21 to ₹ 567 crore in FY 2021-22, in line with growth in new business.

### iii. Income from Investments

The following table sets forth, for the periods indicated, summary of income from investments:

(₹ crore)

Particulars	FY 2021-22					FY 2020-21				
	Policyholders			Shareholders	Total	Policyholders			Shareholders	Total

#### a) Policyholders:

##### Non-Linked Segments (Par and Non-Par):

Par and non-par segments witnessed an increase in interest income from ₹ 5,644 crore in FY 2020-21 to ₹ 7,255 crore in FY 2021-22, on the back of higher asset under management (AUM), supported by higher inflows through renewals and new business premium. Dividend income increased from ₹ 76 crore in FY 2020-21 to ₹ 111 crore in FY 2021-22 due to higher dividend payout by investee companies.

Net profit on sale of investment marginally decreased from ₹ 884 crore in FY 2020-21 to ₹ 869 crore in FY 2021-22 on account of lower realisation on sale of investment assets.

##### Unit linked segment:

Investment returns in this segment are transferred directly to policyholders, with corresponding changes in unit liabilities. Investment income under this segment is lower by ₹ (15,084) crore primarily on account of:

- Decrease in change in fair value from ₹ 20,191 crore in FY 2020-21 to ₹ 3,412 crore in FY 2021-22, which represents decrease in unrealised gains from the unit linked investment portfolio. This was driven by relatively lower equity market performance during FY 2021-22, as BSE Sensex increased by 18% compared to an increase of 68% in FY 2020-21 and BSE100 increased by 19% compared to an increase of 71% in

FY 2020-21. 10 year government security (G-Sec) bond yields have increased by 67 bps compared to increase of 4 bps in FY 2020-21.

- Decrease in interest on investments in fixed income securities from ₹ 1,690 crore to ₹ 1,519 crore, primarily due to fall in fixed income bond holding
- Net profit on sale of investments increased from ₹ 3,846 crore in FY 2020-21 to ₹ 5,589 crore in FY 2021-22 on account of higher gains on realisation

- Dividend income increased from ₹ 451 crore in FY 2020-21 to ₹ 574 crore in FY 2021-22 due to higher dividend payout by investee companies

#### b) Shareholders:

Interest income in the shareholders' account increased from ₹ 425 crore in FY 2020-21 to ₹ 462 crore in FY 2021-22 due to increase in size of fixed income portfolio.

Profit on sale / redemption of investments has increased from ₹ 209 crore in FY 2020-21 to ₹ 310 crore in FY 2021-22 due to higher profit realisation on the equity portfolio.

Time Weighted Rate of Return (TWRR) for policyholders and shareholder accounts are detailed below:

Particulars	(₹ crore)	
	FY 2021-22	FY 2020-21
Investments:		
Policyholders' Investments	1,88,933	1,65,297
Shareholders' Investments	15,238	8,542
<b>A. Without Unrealised Gains/Losses</b>		
Shareholders' Funds	7.70%	8.89%
Policyholders' Funds		
- Non Linked		
a) Participating	8.70%	8.51%
b) Non Participating	9.11%	9.52%
- Linked -Non Participating	11.54%	8.62%
<b>B. With Unrealised Gains/Losses</b>		
Shareholders' Funds	5.84%	15.44%
Policyholders' Funds		
- Non Linked		
a) Participating	6.05%	16.27%
b) Non Participating	2.30%	7.21%
- Linked -Non Participating	13.61%	47.25%

For FY 2021-22, TWRR for Shareholders' funds includes investment in Exide Life Insurance Company Ltd - 'Exide Life', hence not comparable with corresponding previous period. For FY 2021-22, TWRR without unrealised gains / losses and with unrealised gains / losses for Shareholders' funds excluding investment in Exide Life was 9.20% and 6.94% respectively.

During FY 2021-22, TWRR without unrealised gains/ losses for par funds and linked funds increased on account of higher gains on realisation on sale of investment assets. Decrease in TWRR without unrealised gains / losses for shareholders' funds and non par funds is on account of lower realisation on sale of investment assets. Decrease in TWRR with unrealised gains / losses for shareholders' funds and policyholders' funds was primarily on account of relatively lower equity market performance during FY 2021-22 as explained earlier.

## Management Discussion and Analysis

### iv. Other income:

Other income mainly comprises interest on revival of policies, interest on policy loans, interest on unclaimed amount of policyholders amongst others. Other income marginally decreased from ₹ 183 crore in FY 2020-21 to ₹ 177 crore in FY 2021-22.

### v. Commission:

The summary of commission expense is as follows:

Particulars	FY 2021-22				FY 2020-21			
	First year	Single	Renewal	Total	First year	Single	Renewal	Total
Premium	8,045	16,100	21,808	45,963	6,858	13,248	18,477	38,583

(₹ crore)

\*Represents rewards as defined under Insurance Regulatory Development Authority of India (IRDAI) (Payment of commission or remuneration or reward to Insurance agents and Insurance intermediaries) Regulations, 2016.

We pay commission to our distributors on the premium income collected during the period.

Commission expense increased by 14% from ₹ 1,676 crore in FY 2020-21 to ₹ 1,940 crore in FY 2021-22 due to the following reasons:

- First year commission increased by 8% from ₹ 1,266 crore in FY 2020-21 to ₹ 1,368 crore in FY 2021-22 due to business growth while the average commission rate decreased primarily due to higher business volumes of policies with lower premium paying term.
- Single premium commission increased by 55% from ₹ 133 crore in FY 2020-21 to ₹ 206 crore in FY 2021-22 due to business growth, while the average commission rate increased mainly due to higher contribution by products with higher commission rate.
- Renewal commission increased by 19% from ₹ 277 crore in FY 2020-21 to ₹ 330 crore in FY 2021-22, on account of higher renewal premium due to improved persistency.

### vi. Operating expenses:

The following table sets forth, for the periods indicated, summary of operating expenses:

Particulars	FY 2021-22		FY 2020-21		Growth %
Employees' remuneration & welfare benefits	2,029		1,676		21%
Advertisement and publicity	1,884		1,410		34%
Business development expenses	784		666		18%
Information technology expenses	165		139		19%
Others:					
Volume based expenses	139		119		17%
Other expenses	612		576		6%
<b>Operating Expenses Policyholders (A)</b>	<b>5,613</b>		<b>4,586</b>		<b>22%</b>
<b>Operating Expenses Shareholders (B)</b>	<b>42</b>		<b>37</b>		<b>14%</b>
<b>Operating Expenses (A+B)</b>	<b>5,655</b>		<b>4,623</b>		<b>22%</b>

(₹ crore)

The total operating expenses to total premium ratio over past 3 years is shown below.

**a) Operating expenses under Policyholders' Revenue account:**

The operating expenses to total premium ratio increased from 12.0% to 12.3% for the year mainly due to normalisation of expenses post easing of the pandemic and business growth.

- **Employee Remuneration:**  
Employee cost has increased due to increase in manpower and yearly increment normalisation.
- **Advertisement and Publicity Spends:**  
In line with Company's focus on increasing brand visibility and creating insurance awareness, advertisement and publicity spends have increased during the year. As part of the overall branding strategy, HDFC Life conducts various campaigns specifically targeted at locations with higher visibility in the target customer group.
- **Business Development Expenses:**  
Business development expenses mainly comprises contest payouts, business promotion expenses, name usage fees, events and meets expenses amongst others. The increase is in line with the business activities.
- **Information technology expenses:**  
During the pandemic, continued investment in information technology played a pivotal role to ensure

a smooth transition from physical to digital right from new business stage to policy servicing including claims.

- **Others include:**  
**Volume Based Expenses:**  
Increase in expenses based on business volume such as stamp duty and medical fees is due to growth in the credit life business following the normalisation of credit disbursements.  
  
**Other expenses:**  
Other expenses like travel, training, repairs, printing, communication and general office expenses have started normalising.

**b) Operating Expenses in Shareholders' account:**

Expenses other than those directly related to insurance business increased by 16% from ₹ 37 crore in FY 2020-21 to ₹ 42 crore in FY 2021-22 primarily on account of Exide Life acquisition and merger related expenses of ₹ 10 crore.

**vii. Interest on Non-Convertible debentures:**

During the FY 2020-21, the Company issued subordinated debt in the form of Non-convertible debentures (NCD) of ₹ 600 crore in July 2020 at a coupon rate of 6.67% per annum to enhance solvency. This amount has been invested, on which the Company earned income of ₹ 36 crore in FY 2021-22 and ₹ 24 crore in FY 2020-21, and which formed part of Investment income in point iii. above. Interest payment on these debentures amounted to ₹ 40 crore in FY 2021-22 and ₹ 27 crore in FY 2020-21.

**viii. Other Provisions include reversals in provision for diminution in the value of investments (net). Reversals in Policyholders' Revenue account increased from ₹ 191 crore in FY 2020-21 to ₹ 256 crore in FY 2021-22 and decrease in the Shareholders' Profit and Loss account from ₹ 37 crore in FY 2021-22 to ₹ 33 crore in FY 2020-21.**

The reversal in provision for diminution was primarily due to continued recovery in value of investments considered for diminution. The BSE Sensex increased by 18% compared to increase of 68% in FY 2020-21 and BSE100 increased by 19% compared to increase of 71% in FY 2020-21.

Benefits paid include claims on death, maturity, surrender and withdrawals. Benefits paid during the year increased from ₹ 22,575 crore in FY 2020-21 to ₹ 31,864 crore in FY 2021-22 primarily due to higher maturities, death claims and surrenders during the year.

#### a) Surrenders & Withdrawals:

Surrenders increased from ₹ 6,916 crore in FY 2020-21 to ₹ 8,982 crore in FY 2021-22 mainly due to changes in the external environment. The withdrawals increased from ₹ 1,956 crore in FY 2020-21 to ₹ 4,800 crore in FY 2021-22. We continue to focus on need-based selling and to sensitise our customers on the need to continue with their existing policies, to protect their families and achieve their financial goals.

#### b) Discontinuance termination:

Discontinuance termination payouts decreased from ₹ 3,088 crore in FY 2020-21 to ₹ 2,618 crore in FY 2021-22 on the back of changes in underlying business written over the years.

#### c) Maturity & Money back (including Annuity):

Maturity has increased from ₹ 7,498 crore in FY 2020-21 to ₹ 9,699 crore in FY 2021-22 due to higher number of policies completing their policy term.

Money back (including Annuity) increased from ₹ 492 crore in FY 2020-21 to ₹ 731 crore in FY 2021-22 due to higher number of policies attaining eligibility for payouts, as compared to the previous year.

#### d) Protection Claims (Death, Health & Rider):

Protection claims increased in line with higher protection business written over the past years and also on account of elevated mortality claims due to COVID-19 wave 2. During the year, 3,85,433 protection claims were paid amounting to ₹ 5,804 crore as against 16,639 claims amounting to ₹ 1,037 crore in FY 2020-21. Of these, 15,293 claims amounting to ₹ 1,518 crore and 3,118 claims amounting to ₹ 222 crore were pertaining to COVID related claims in FY 2021-22 and FY 2020-21 respectively. Overall claim settlement ratio was 99.6% and the individual claim settlement ratio was 98.7%. While mortality claim experience has normalised, the Company is carrying excess mortality reserve (EMR) of ₹ 55 crore into FY 2022-23.

#### e) Increase in amounts received/recoverable from reinsurance is in line with increase in claims.

**x. Change in valuation of policy liabilities**

The following table sets forth, for the periods indicated, summary of the changes in valuation of liabilities:

Particulars	(₹ crore)	
	FY 2021-22	FY 2020-21
Gross: policy liabilities (non-unit/ mathematical reserves)	21,485	21,319
Amount ceded in reinsurance	(2,665)	(1,067)
Amount accepted in Reinsurance	-	-
Fund reserve	5,555	20,119
Funds for discontinued policies	307	458
<b>Change in valuation of liability in respect of life policies</b>	<b>24,682</b>	<b>40,830</b>

Change in valuation reserves reflects change in the actuarial liability in respect of policies in force and for policies in respect of which premium has been discontinued but a liability still exists. The change in fund reserves includes the change in unit fund value of policyholders' fund, under the unit linked segment.

The lower increase in fund reserves in the unit linked fund was due to the equity/ bond markets performance. During FY 2020-21, BSE100 increased by 71% compared to increase of 19% in FY 2021-22 and 10 year government security (G-Sec) bond yields have increased by 67 bps compared to increase of 4 bps in FY 2020-21. The change in reserves for the non-participating segment reflects the net increase due to higher new business and renewal premium collection. The increase in liability under these policies was offset by release of reserves on account of benefits paid.

**xi. Provision for tax**

Provision for taxation shown in the revenue accounts represents tax charged on the total surplus (grossed up for bonus of the participating line of business in the Revenue account). Provision for tax decreased from ₹ 274 crore in FY 2020-21 to ₹ 184 crore in FY 2021-22 due to decrease in taxable surplus in participating and unit linked segments and an increase in surplus from the tax exempt pension segment.

Provision for tax in the Shareholders' Profit & Loss account decreased due to tax deduction under section 80M of the Income tax Act, 1961.

**xii. Change in funds for future appropriation (FFA)**

FFA reflects the surplus arising from the participating business to the extent it is not distributed. The change in FFA reduced from a positive of ₹ 108 crore in FY 2020-21 to a negative of ₹ 50 crore in FY 2021-22 primarily due to new business strain.

**B) Financial Position/Balance Sheet analysis:**

The following table sets forth, for the periods indicated, the financial position of the Company:

Particulars	(₹ crore)	
	As on March 31, 2022	As on March 31, 2021
<b>Sources of funds</b>		
Shareholders' funds	15,486	8,638

**Sources of Funds****i. Shareholders' funds:**

The breakup of capital and reserves is as follows:

Particulars	(₹ crore)	
	As on March 31, 2022	As on March 31, 2021
Share Capital	2,113	2,021
Share application money received pending allotment of shares	3	2
Reserves and Surplus	13,285	6,407
Credit/ (Debit) Fair Value Change Amount	85	208
<b>Shareholders' fund (net worth)</b>	<b>15,486</b>	<b>8,638</b>

Net-worth increased from ₹ 8,638 crore at March 31, 2021 to ₹ 15,486 crore at March 31, 2022.

On January 1, 2022, the Company acquired 100% of Exide Life Insurance Co Ltd, as a wholly owned subsidiary company for a consideration of ₹ 6,687 crore, in the form of 8.7 crore equity shares at a fair value of ₹ 685 per share and cash payout of ₹ 726 crore. The issuance of equity shares has resulted in increase in share capital by ₹ 87 crore and share premium by ₹ 5,874 crore. Excluding the Exide Life acquisition, the net-worth increased from ₹ 8,638 crore as at March 31, 2021 to ₹ 9,525 crore as at March 31, 2022. This increase in net-worth is due to

## Management Discussion and Analysis

transfer of profits of ₹ 1,208 crore for FY 2021-22 and dividend payout of ₹ 408 crore in respect of FY 2020-21.

Fair value change account represents the balance of unrealised gains/ loss on equity securities in the Shareholders' fund. Decrease in fair value change in Shareholders' account from ₹ 208 crore at March 31, 2021 to ₹ 85 crore at March 31, 2022 was primarily due to the realisation of profits on the equity portfolio and market movement.

### ii. Borrowings:

During the year ended March 31, 2021, the Company issued unsecured, subordinated, non-convertible debentures (NCDs) of ₹ 600 crore in the nature of 'Subordinated Debt' as per the IRDAI (Other Forms of Capital) Regulations, 2015. The said NCDs were allotted on July 29, 2020 and are redeemable at the end of 10 years from the date of allotment with a call option to redeem the NCDs post completion of 5 years from the date of allotment and annually thereafter. The issuance of subordinated debt was carried out to strengthen the solvency position, provide a cushion against equity market volatility and support new business growth.

### iii. Policyholder's Funds:

The summary of Policyholders' funds is given below:

Particulars	₹ crore)	
	As on March 31, 2022	As on March 31, 2021
<b>POLICYHOLDERS' FUND:</b>		
Credit / (Debit) Fair Value Change Amount	2,170	2,555
Policy Liabilities	104,343	85,523
Provision for Linked liabilities	76,519	70,963
Funds for discontinued policies	4,102	3,796
Funds for future appropriations	941	991
<b>Total Policyholders Funds</b>	<b>188,075</b>	<b>163,828</b>

#### a) Credit/(Debit) Fair value change:

The movement in fair value change account is a function of the performance of the equity markets and the mix of equity and mutual funds in the portfolio which relates to non-linked segments. Credit/Debit Fair value change decreased from ₹ 2,555 crore as at March 31, 2021 to ₹ 2,170 crore at March 31, 2022 mainly due to realisation of profits on equity portfolio

and reversal of impairment provision due to recovery in equity markets.

Credit / Debit Fair Value change also includes Cash flow Hedge Reserve which reduced from ₹ 223 crore as at March 31, 2021 to ₹ (79) crore as at March 31, 2022 largely due to increase in outstanding exposure in forward rate agreement (FRA) contracts from ₹ 13,767 crore as on March 31, 2021 to ₹ 19,132 crore as on March 31, 2022 and rise in Government securities yields during FY 2021-22.

During the year, as part of our hedging strategy, we continue to enter into FRA transactions to hedge our interest rate risk.

We entered into FRAs to minimise exposure to fluctuations in interest rates. This hedge is carried in accordance with established policies and applicable regulations. We do not engage in derivative transactions for speculative purposes.

Notional value of outstanding exposure in FRA contracts increased from ₹ 13,767 crore as on March 31, 2021 to ₹ 19,132 crore as on March 31, 2022.

#### b) Policy liabilities:

Policy liabilities increased from ₹ 85,523 crore as at March 31, 2021 to ₹ 104,343 crore as at March 31, 2022 in line with new business growth and liability for the existing persistent back book.

#### c) Provision for Linked liabilities :

Provision for Linked liabilities represents unit fund liability in respect of linked business calculated as a product of number of units outstanding and the Net Asset Value (NAV) as of reporting date. Provision for linked liabilities increased from ₹ 70,963 crore as at March 31, 2021 to ₹ 76,519 crore as at March 31, 2022 in line with new business growth and liability for the existing persistent back book.

#### d) Fund for future appropriations:

Funds for future appropriation reduced from ₹ 991 crore as at March 31, 2021 to ₹ 941 crore as at March 31, 2022. This represents funds in the participating segment, allocation of which, either to participating policyholders' or to shareholders', has not been determined as at the Balance Sheet date. The change is primarily due to new business strain during FY 2021-22.

## Application of Funds

### iv. Investments

The graph below summaries the Asset Under Management (AUM):

The break-up of investments as on balance sheet dates is as follows:

(₹ crore)

Particulars	As on March 31, 2022	As on March 31, 2021	Growth %
Investments			
- Shareholders'	15,238	8,542	78%
- Policyholders' (Non Linked)	108,310	90,538	20%
Assets held to cover Linked Liabilities	80,622	74,759	8%
<b>Total</b>	<b>204,170</b>	<b>173,839</b>	<b>17%</b>

The reasons for key movements are detailed below:

#### a) Shareholders' Investments:

Shareholders' investments increased by 78% from ₹ 8,542 crore as at March 31, 2021 to ₹ 15,238 crore as at March 31, 2022 primarily due to the Exide Life acquisition for ₹ 5,961 crore by way of share capital (including share premium) and cash of ₹ 726 crore. The Shareholders' investments excluding Exide Life acquisition is ₹ 8,551 crore. In addition to the Exide Life acquisition, the shareholders' investments increased by profit transfer from policyholders' funds and reduced by dividend payout and decrease in the market value of the equity portfolio.

#### b) Policyholders' Investments (Non Linked):

Policyholders' investments increased by 20% from ₹ 90,538 crore as at March 31, 2021 to ₹ 108,310 crore as at March 31, 2022 in line with the growth in premium inflows (net of claims) and investment income.

### c) Policyholders' Investments (Linked):

Assets held to cover Linked Liabilities increased by 8% from ₹ 74,759 crore as at March 31, 2021 to ₹ 80,622 crore as at March 31, 2022 mainly due to lower unrealised gains resulting from growth in equity markets.

### v. Loans against Policy:

Loans against policies (net of repayments) increased from ₹ 424 crore as at March 31, 2021 to ₹ 643 crore as at March 31, 2022 primarily on account of higher number of policyholders availing liquidity against their existing policies while continuing with their financial coverage. These loans are fully secured and are net of the provision for standard assets, made in accordance with the applicable IRDAI regulations.

### vi. Current Assets:

The following table sets forth, for the periods indicated, summary of current assets:

(₹ crore)

Particulars	As on March 31, 2022	As on March 31, 2021
<b>Advances</b>		
Prepayments	57	47
Advance tax paid	536	498
Capital advances	0	0
Security deposits	43	41
Other advances	55	66
<b>Other Assets</b>		
Income accrued on investments	1,871	1,809
Outstanding Premiums	468	374
Due from other entities carrying on insurance business (including reinsurers)	270	272
Due from subsidiaries/holding company	15	10
Investment sold awaiting settlement	57	42
Assets held for unclaimed amount of policyholders	596	627
Income on unclaimed amount of policyholders	66	71
Receivable from unit linked schemes	-	13
Cash and Bank Balance	1,087	1,036
Others	112	71
<b>Total current assets</b>	<b>5,233</b>	<b>4,978</b>

Key items of current assets and advances are:

- a) Income accrued on investments increased from ₹ 1,809 crore as at March 31, 2021 to ₹ 1,871 crore as at March 31, 2022 due to increase in the fixed income securities and equity holdings.

## Management Discussion and Analysis

- b) Outstanding premium increased from ₹ 374 crore as at March 31, 2021 to ₹ 468 crore as at March 31, 2022 due to higher base of policies. It represents premium due but not received on Non-Linked policy contracts, which are within their allowed grace period.
- c) Due from other entities carrying on insurance business represents the net amount due from reinsurers pertaining to mortality claims on policies covered by reinsurance, net of reinsurance premium payable to them. It also includes claims received but pending decision and intimation to the reinsurer. The decrease from ₹ 272 crore as at March 31, 2021 to ₹ 270 crore as at March 31, 2022, is in line with corresponding claims recognised and receivable from reinsurers.
- d) Investments sold awaiting settlement represents sale proceeds pending to be received on sale of investments. This amount has increased from ₹ 42 crore as at March 31, 2021 to ₹ 57 crore as at March 31, 2022 due to higher number of trades undertaken as at March 31, 2022 as compared to March 31, 2021.
- e) Pursuant to IRDAI circular on "Handling of unclaimed amounts pertaining to policyholders" and the Master circular on unclaimed amount of policyholders issued on November 17, 2020, the Company has created a single segregated fund known as Unclaimed Fund to manage all policyholders payouts remaining unpaid greater than 180 days. Decrease in assets held for unclaimed amount (including interest amount on unclaimed) towards policyholders from ₹ 698 crore as at March 31, 2021 to ₹ 663 crore as at March 31, 2022, is on account of efforts undertaken by the Company to connect with customers and disburse amounts out of the Unclaimed Fund.
- f) Others majorly include fund management charges receivable, Goods and Services Tax/ Service Tax Unutilised credits, Service tax deposits and other assets.

### vii. Current Liabilities and Provisions:

The summary of current liabilities and Provisions is as follows:

Particulars	(₹ crore)	
	As on March 31, 2022	As on March 31, 2021
<b>Current liabilities</b>		
Agents' Balances	253	247
Balances due to other insurance companies (including reinsurers)	2	9
Premiums received in advance	38	26
Unallocated Premium	512	498
Sundry Creditors	2,793	2,272
Claims Outstanding	28	237
Annuities Due	4	3
Unclaimed amount of policyholders	596	627
Income on unclaimed fund	66	71
Investments purchased - to be settled	104	554
Payable to Policyholders	1,440	1,676
Others	301	203
<b>Provisions</b>		
Provision for employee benefits	62	63
Provision for taxation	29	29
<b>Total current liabilities and provisions</b>	<b>6,228</b>	<b>6,515</b>

Key items of current liabilities & provisions are given below:

- a) Agent balances represent amounts payable to insurance agents and intermediaries towards commission as at the balance sheet date. Increase from ₹ 247 crore as at March 31, 2021 to ₹ 253 crore as at March 31, 2022 is in line with increase in premiums and accrual for agent commissions payable against the premium earned at the end of the year.
- b) Balances due to other insurance companies represents reinsurance premium payable net of any claims accepted and receivable from them.
- c) Premium received in advance represents advance premium which will be recognised as premium income on the due date of the policy.
- d) Unallocated premium represents premium received on policies that are in the process of issuance or pending due to underwriting requirements. Increase from ₹ 498 crore as at March 31, 2021 to ₹ 512 crore as at March 31, 2022 is attributable to premium received pending underwriting or receipt of additional documents.

- e) Sundry creditors represent amounts payable/accruals for various services utilised by the Company for expenses like employee related cost, marketing cost, operating expenses, interest payable on NCDs and provisions for litigations. Increase in sundry creditors from ₹ 2,272 as at March 31, 2021 to ₹ 2,793 crore as at March 31, 2022 is due to normal business activities and negotiations carried out for better payment terms.
- f) Claims outstanding represents amounts payable to policyholders for various claims that are intimated to us and outstanding as on balance sheet date pending investigation or requirement of further documents from policyholders. The claim outstanding reduced from ₹ 237 crore as at March 31, 2021 to ₹ 28 crore as at March 31, 2022.
- g) Unclaimed amount of policyholders and interest on unclaimed amount of policyholders represent amount including interest payable to unclaimed policyholders.
- h) Payable to policyholders represent amount admitted as payable to policyholders and is outstanding to be settled as on the balance sheet date. The payable to policyholders reduced from ₹ 1,676 crore as at March 31, 2021 to ₹ 1,440 crore as at March 31, 2022.
- i) Others include tax deducted, Goods and Services Tax liability and proposal deposits refund.

### viii. Contingent liabilities:

The below table summarises the contingent liabilities:

Particulars	₹ crore)	
	As on March 31, 2022	As on March 31, 2021
Partly paid-up investments	940	1,747
Statutory demands and liabilities in dispute, not provided for	101	66
Claims against policies not acknowledged as debts by the Company (net of insurance)	41	41
<b>Total</b>	<b>1,082</b>	<b>1,854</b>

Contingent liability for partly paid up investments decreased from ₹ 1,747 crore as at March 31, 2021 to ₹ 940 crore as at March 31, 2022 primarily due to payment of call amounts on the respective call dates of underlying investment.

Statutory demands and liabilities in dispute, not provided for, relate to the show cause cum demand notices received by the Company from Tax authorities. The Company has filed appeals against the demand notices with the appellate authorities and have been advised by experts that the grounds of appeal are well supported in law, in view of which the Company does not expect any liability to arise in this regard.

### C) Cash Flow Statement:

The following table sets forth, for the periods indicated, a summary of the cash flows:

Particulars	₹ crore)	
	FY 2021-22	FY 2020-21
Net cash generated from/ (used in) operating activities	5,540	9,703
Net cash generated from/ (used in) investing activities	(1,402)	(8,995)
Net cash generated from/ (used in) financing activities	(238)	678

#### i. Cash flow from operating activities:

Decrease in cash flow from operating activities by ₹ 4,163 crore is primarily driven by premium received from policyholders net of payments towards benefits, commission and operating expenses.

#### ii. Cash flow from investing activities:

Increase in cash flow from investing activities by ₹ 7,593 crore mainly represents net increase in investment of funds in various securities such as government bonds, equity, corporate bonds/ paper, money market instruments and liquid mutual funds

#### iii. Cash flow from financing activities:

Decrease in cash flow from financing activities by ₹ 916 crore is because of previous year containing additional funds received by issue of non-convertible debentures of ₹ 600 crore in July 2020 and current year having payments of dividend of ₹ 408 crore.

## Management Discussion and Analysis

The following table sets forth, a break-up of underwriting profits into back book surplus and new business strain and shareholders income over a period of three years:

(₹ crore)			
Particulars	FY 2019-20	FY 2020-21	FY 2021-22
<b>Underwriting Profits:</b>			
Back book Surplus	2,992	3,232	3,485
New Business Strain	(1,905)	(2,500)	(3,045)
<b>Total (A)</b>	<b>1,087</b>	<b>732</b>	<b>440</b>
Shareholders' income (B)	208	628	768
<b>Total (A+B)</b>	<b>1,295</b>	<b>1,360</b>	<b>1,208</b>

The overall underwriting profits decreased from ₹ 732 crore in FY 2020-21 to ₹ 440 crore in FY 2021-22 due to increase in new business strain by 22% from ₹ 2,500 crore in FY 2020-21 to ₹ 3,045 crore in FY 2021-22. This was offset by growth of 8% in back book surplus from ₹ 3,232 crore in FY 2020-21 to ₹ 3,485 crore in FY 2021-22. The growth in underwriting profits have been impacted by the adverse mortality experience due to the Wave 2 of COVID pandemic. Shareholders' income increased from ₹ 628 crore in FY 2020-21 to ₹ 768 crore in FY 2021-22 on account of higher net realised profits on sale of equity investments. The total accumulated profits were ₹ 6,729 crore as on March 31, 2022.

### ii. Capital and Solvency Ratio: Capital/ Network

# without Exide Life acquisition the net worth as at March 31, 2022 would have been ₹ 9,525 crore.

### Solvency

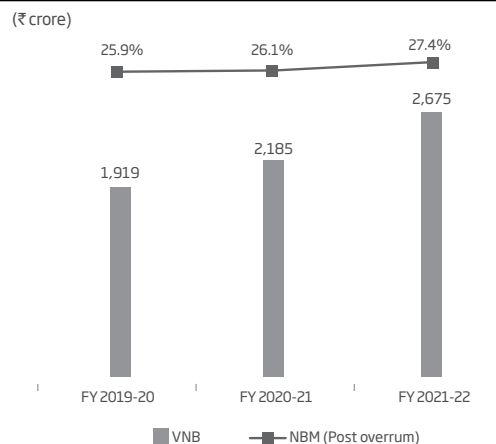

As against a regulatory minimum requirement of 150%, we have a solvency ratio of 176% as on March 31, 2022 as compared to 201% as on March 31, 2021. The drop in solvency is primarily on account of cash payout of ₹ 726 crore for the acquisition of Exide Life. The Board has approved sub-ordinated debt raise of ₹ 350 crore, which will help in improving solvency by around 6%.

1. ASM represents Available solvency margin and RSM represents Required solvency margin
2. Final dividend of ₹ 1.7 per share has been approved in the Board meeting on April 26, 2022; Final payout is subject to shareholders' approval in AGM 2022 and post payout, solvency ratio would be reduced to the extent of dividend paid

### iii. New Business Margins:

The Value of new business (VNB) grew by 22% to ₹ 2,675 crore in FY 2021-22 on the back of volume growth and expansion of new business margins. The new business margins increased to 27.4% compared to 26.1% last year due to favorable product mix.

#### iv. Analysis of change in Indian Embedded Value (IEV):

#### Notes:

1. EVOP% calculated as annualised EVOP (Embedded Value Operating Profit) to Opening EV
2. EMR: Excess mortality reserve
3. HDFC Life EV excluding Exide Life EV reviewed by Milliman Advisors LLP; Exide Life EV reviewed by Willis Towers Watson

We continue to deliver healthy growth in EV with Embedded Value Operating Profit (EVOP) of ₹ 5,052 crore (19.0% of EV). The overall operating variances continue to be positive and in line with our assumptions.

#### Sensitivity analysis

Analysis based on key metrics Change in	Scenario	Change in VNB Margin <sup>1</sup>	% Change in EV
Reference rate	Increase by 1%	-1.4%	-2.0%
	Decrease by 1%	0.8%	1.6%
Equity Market movement	Decrease by 10%	-0.1%	-1.4%
Persistency (Lapse rates)	Increase by 10%	-0.6%	-0.6%
	Decrease by 10%	0.7%	0.6%
Maintenance Expenses	Increase by 10%	-0.5%	-0.8%
	Decrease by 10%	0.5%	0.8%
Acquisition Expenses	Increase by 10%	-3.4%	NA
	Decrease by 10%	3.4%	NA
Mortality / Morbidity	Increase by 5%	-1.2%	-1.0%
	Decrease by 5%	1.2%	1.0%
Tax rate <sup>2</sup>	Increased to 25%	-4.8%	-9.1%

#### Notes:

<sup>1</sup> Post overrun total VNB for Individual and Group business

<sup>2</sup> The tax rate is assumed to increase from 14.56% to 25% and hence all the currently taxed profits in policyholder/shareholder segments are taxed at a higher rate.

Our financial risk management framework enables us to identify potential risks in a timely manner and take steps to mitigate those risks. This is reflected in lower sensitivity of our new business margins and Embedded Value to various economic and operational parameters despite increasing scale of business.

## Management Discussion and Analysis

### E. Performance of Subsidiary Companies

#### I. HDFC Pension Management Company

HDFC Pension Management Company Limited (“HDFC Pension”), a wholly owned subsidiary of HDFC Life Insurance Company Limited, started its operations in August 2013.

HDFC Pension, ended FY 2021-22 with an AUM of ₹ 28,414 crore, an increase of 73% vs the previous year. As on March 31, 2022, HDFC Pension had a market share of 37%, retaining its #1 position as a private Pension Fund Manager (PFM) in terms of National Pension System (NPS) AUM. NPS continues to contribute significantly to our Annuity business.

The Company has about 11.4 lakh customers under the retail and corporate NPS segment as on March 31, 2022.

In FY 2019-20, HDFC Pension started its operation as a Point of Presence (POP) in both retail and corporate NPS segments. The Company closed FY 2021-22 with over 1,500 corporates and over 1,50,000 subscribers and it has been the largest POP in the new corporate NPS space, 3 years in a row.

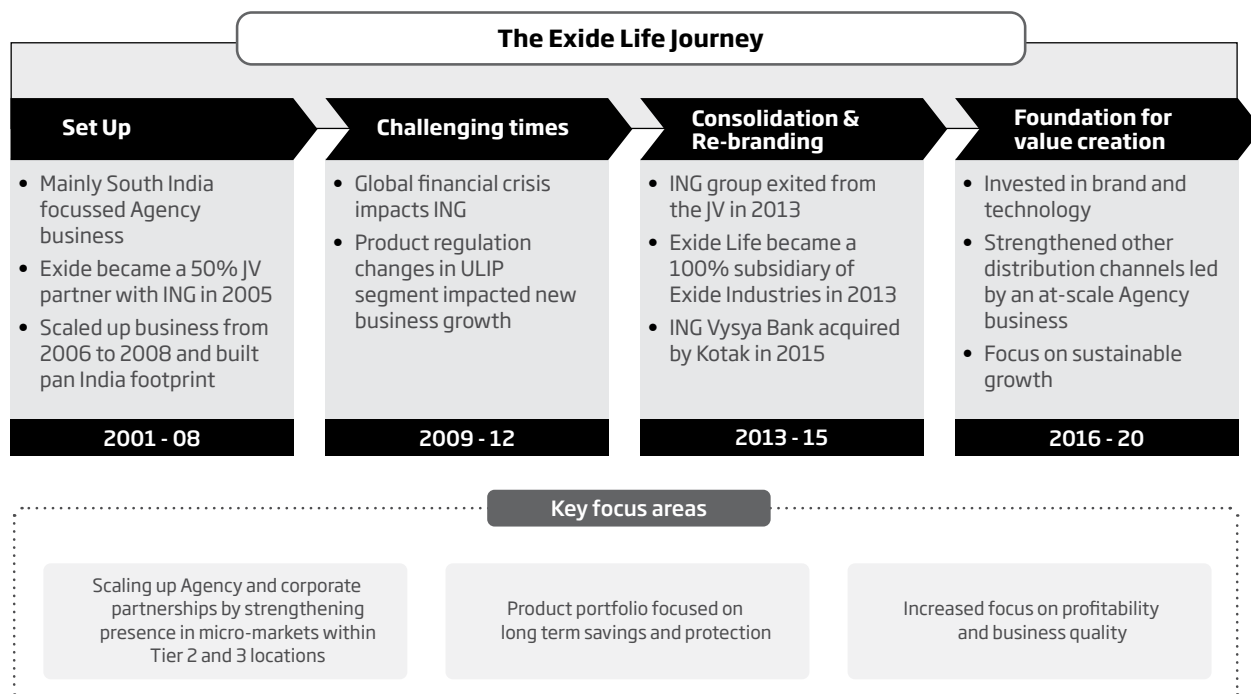

#### II. HDFC International Life and Re Company

HDFC International has successfully completed six years of operations and is steadily building experience in the Middle East & North Africa (MENA) region. During FY 2021-22, HDFC International generated Gross Written Premiums (GWP) of USD 15.6 million, registering 18% y-o-y growth despite a challenging operating environment on account of the COVID-19 pandemic. Outcome of key strategic levers and performance metrics continued to remain stable during the year while maintaining adequate global reserves including periodic assessment of claims volatility reserves and addition of premium deficiency reserve.

The business model continues to offer treaty and facultative led reinsurance solutions to cedents and client partners, across the spectrum of life and medical insurance lines. The Company also received confirmation from S&P Global Ratings of its long-term public financial strength rating of ‘BBB’ with a Stable outlook during the year.

#### III. Exide Life Insurance

Effective January 1, 2022, Exide Life became our wholly owned subsidiary as part of the overall merger process. This first-of-its-kind transaction is a reflection of our intent to build sustainable business with focus on stakeholders’ value creation.

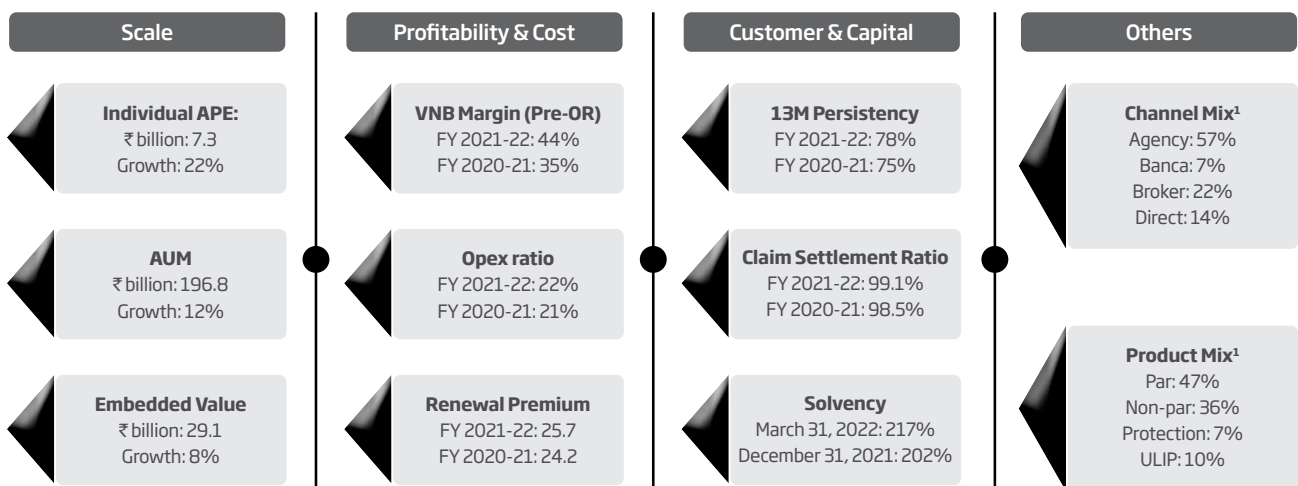

The acquisition of Exide Life will accelerate the growth of our Agency business over the due course of merger. Exide Life complements HDFC Life's geographical presence and has a strong foothold in South India, especially in Tier 2 and 3 towns, thus providing access to a wider market. Further, a good quality, predominantly traditional and protection focussed business, will augment our existing embedded value by approximately 10%. In turn, HDFC Life's scale, market-leading digital and product innovation capabilities and prudent risk management strategy will aid in optimising cost and over time, achieve higher margins for the acquired business. Exide Life clocked healthy growth of 22% based on individual WRP in FY 2021-22, well-above the overall industry growth of 16%. Its Embedded value, Assets under

Management and Solvency as on March 31, 2022, stood at ₹ 2,910 crore, ₹ 19,680 crore and 217%, respectively.

From product strategy perspective and given the uncertainty pandemic brought in people's lives, Exide Life focused on products with 'guarantees' along with 'long term efficient insurance savings' to drive overall business during FY 2021-22. For the financial year, traditional product share was ~83% and protection share ~7% in individual new business. Exide Life product portfolio consists of 26 individual products, 5 group products and 4 riders which cover the life stage needs of every customer segment.

Proprietary channels helped drive the top line and the company delivered one of its strongest performance across key performance indicators

### Exide Life Performance Snapshot: FY 2021-22

1. Based on individual Annualised Premium Equivalent (APE)

The merger process has been initiated with National Company Law Tribunal (NCLT) and is expected to be completed in the second half of this financial year. We continue to make progress in being able to seamlessly integrate both the businesses, post regulatory approval. We are confident about continued margin expansion on standalone basis at HDFC Life and Exide Life and aspire to be margin neutral on consolidated basis in FY 2022-23. However, we will prioritise value preservation and investment in expanding the franchise.

### G. Internal control systems and their adequacy

The Company has institutionalised a robust and comprehensive internal control mechanism across all major processes to ensure reliability of financial reporting, timely feedback on achievement of operational and strategic goals, compliance with policies, procedures, laws, and regulations. The internal audit function provides independent and reasonable assurance about the adequacy and operating effectiveness of the internal controls to the Board and the Audit Committee. Internal

## Management Discussion and Analysis

audits are conducted by in-house Internal Audit ('IA') team and by the co-sourced auditor (an external chartered accountant firm). All significant audit observations and follow-up actions thereon are periodically reported to the Audit Committee and closely monitored for effective implementation.

The internal audit function also tests and reports on adequacy and operating effectiveness of internal financial controls over financial reporting in line with the requirements of Companies Act, 2013. The Company has established a risk framework to actively manage all material risks faced by the Company, in a manner consistent with the Company's strategy. Aligned with the business decisions, the Enterprise Risk Management (ERM) framework covers all business risks including strategic risk, operational risks (including fraud and information

security/cyber), financial risks (interest rate, credit, liquidity and asset liability mismatch), insurance risks and emerging risks. The Company also has a well-defined risk management policy, which aims at establishing a risk culture and governance framework to enable identification, measurement, mitigation and reporting of risks within the Company. This policy is in line with the Company's strategy, risk-return trade-off and the escalation and accountability framework. Top corporate risks are identified on an annual basis and tabled in Risk Management Committee (RMC) of the Board for review and approval. The identified risks are closely monitored by the risk management team and are presented to the Risk Management Council and RMC of the Board on a quarterly basis. The risk management architecture of the Company is detailed under the ERM section (Audit & Risk Management) chapter of the Annual Report.

# Audit & Risk Management

## Enterprise Risk Management

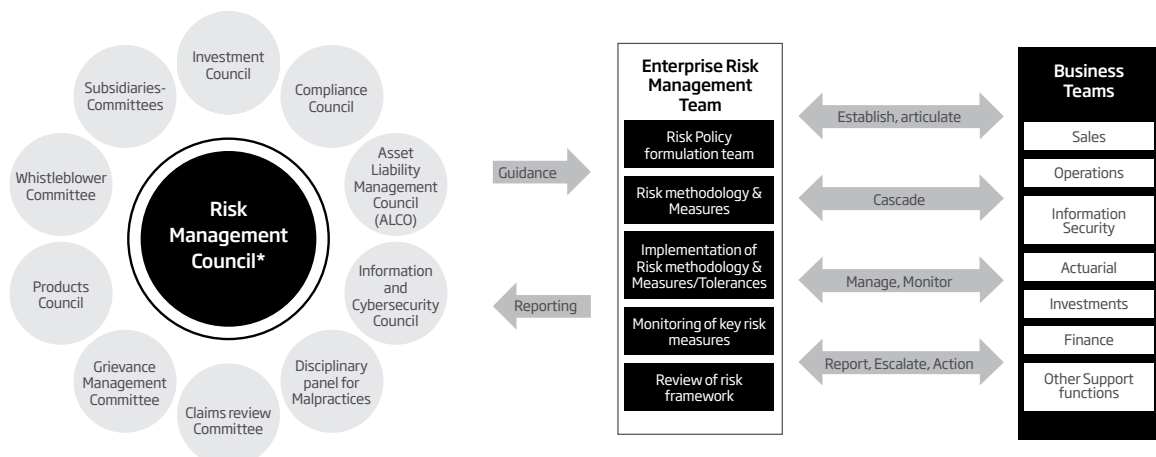

HDFC Life firmly recognises Risk Management as an integral building block to proactively manage risks, and create and protect value for its stakeholders. The Company considers Risk management to be a core competency and an integral part of the overall business strategy and planning. The Company engages in appropriate risk management that commences by identifying foreseeable risks that could have an impact on our business and formulating business plans which take those risks into account. The adopted ERM ('Enterprise Risk Management') framework is enabled by risk oriented enterprise level culture with established risk governance, characterised by:

1. Risk management competency throughout the organisation with a consensus that risk management is everyone's responsibility
2. An iterative process of identifying and evaluating risks, setting risk treatment strategies, and monitoring results
3. A dedicated Risk Management Team with defined roles and responsibilities, which functions under the guidance and supervision of Chief Risk Officer ('CRO').
4. Risk oversight by Senior Management & Board of Directors, vide Risk Management Council and Risk Management Committee respectively

## The key objectives of ERM at HDFC Life are:

1. **Ensure** protection of the interests of our policyholders, shareholders, joint-venture partners, employees, vendors, all other relevant stakeholders and adherence to internally devised value framework
2. **Ensure** complete adherence to applicable regulatory guidelines mandated by regulatory authorities are met unequivocally and maintaining an ethical & robust corporate governance culture
3. **Ensure** proactive identification, assessment, measuring, monitoring, management and reporting of risks with unambiguous objective of value creation by minimising risk and maximising opportunities
4. **Ensure** a systematic, structured, clear, comprehensive and dynamic mechanism for taking smarter yet informed decisions whilst addressing risk & uncertainty pragmatically
5. **Ensure** risk management approach is tailor-made and not one-size fits all by taking human and cultural factors into account in building lean yet effective processes and promoting a strong risk culture

### Risk Drivers managed under ERM Framework

**A. Operational Risk** - Risk of loss resulting from inadequate or failed internal processes, people, systems or external events including legal risk

**Mitigation measures:** Operational risks are managed through mechanisms like Risk Control Self-Assessment (RCSA), Pre-launch risk assessment where all critical processes/projects are assessed and key risks are evaluated and managed before implementation, Operational Loss data collection and incident management framework, Control reports, Thematic risk reviews and Key Risk Indicators (KRIs). The risks are discussed with stakeholders and mitigation strategies are devised with appropriate monitoring & control.

**B. Technology and Business Continuity Risk** - Risks hampering the confidentiality, integrity and availability of information systems and underlying data

**Mitigation measures:** The risks are managed through the following multiple practices; viz. Periodic Business Continuity and IT Disaster Recovery drills, ISO 27001 compliance, Comprehensive Information and Cyber Security Policy, Categorisation of data based upon the importance and sensitivity of the data, Architectural alignment for data security to integrate data security measures with enterprise IT architecture, Defining rights to data for protection through tool, Cyber Security Governance and focus on areas pertaining to Cyber security, Detection of potential data breaches through tools such as DLP (Data Leakage Program), Regular reviews (internal and external audits/risk reviews) of the controls, Regular review and monitoring of external/outsourced vendors, Periodic monitoring and reporting of key technology projects through Information & Cyber Security Council.

**C. Compliance/ Regulatory Risk** - Risks emanating from non-adherence to regulatory, judiciary and

legislative mandates and guidelines, leading to fines and penalties

**Mitigation measures:** The risks are managed through practices such as disseminating regulatory notifications and actionables and ensuring implementation of the same, Compliance Council where key business proposals are tabled, Compliance reviews, All major system changes/new developments or business integrations are evaluated from a regulatory perspective and implemented post Compliance sign-off.

- D. Strategy and Planning Risk** - Risks emanating from non-achievement of strategic objectives, deviation from strategic plans, Execution failures, external and internal factors

**Mitigation measures:** Regular strategy review meetings by leadership team, monthly business review meetings, special cross functional focus groups to handhold strategically important projects

- E. Insurance risk& assumption risk** - Risk arising due to adverse movement of mortality, persistency, morbidity and expense rates

**Mitigation measures:** The specific risks mentioned above are managed through Product design, Board approved underwriting policies, Reinsurance arrangements, Experience monitoring for Claims, persistency review across products and time buckets.

- F. Subsidiary related risks** - Risks originating from subsidiary company actions

Mitigation measures: Oversight of subsidiary company actions and risks. The Risk Management Committee of each of the subsidiary companies provides an update at least on a quarterly basis to the Risk Management Committee of the parent company, highlighting the key risks and the status. Each of the subsidiaries also have its own governance structure in the form of Risk, Investment, Audit Committee, etc. as well as other Committees of the Board of Directors

- G. Financial Risk** - Comprises of the following nature of risks:

- a. Market Risk** - Risk of loss resulting from adverse movement in market prices across asset classes and

investment positions

**Mitigation measures:** Equity risks are managed by way of practices such as restricting the exposure to particular industry segments and individual companies via investment mandates, monitoring fund returns and attribution analysis of the funds, Stop loss policy framework at individual security.

The management and mitigation of interest rate risk is achieved by monitoring the interest rates regularly and action plans drawn when interest rates fall below a threshold level, re-channelising sales of products, Investment in securities of longer duration to mitigate re-investment risk, Durations and Cash flow matching using various hedging instruments

- b. Liquidity Risk** - Market Liquidity Risk is inability to liquidate an asset and Funding Liquidity Risk is inability to meet obligations when due

**Mitigation measures:** Funding liquidity risk is monitored on a regular basis to ensure sufficient liquidity is maintained to meet short-term obligations by timing the cash inflows and outflows through cash flow matching and by maintaining an adequate mix of liquid assets.

Mitigation measures include investing in on-the-market curve securities, high credit quality papers as well as investment in stocks forming part of benchmarks with sufficient market capitalisation. There are also concentration/stock limits prescribed by IRDAI which needs to be mandatorily complied.

- c. Credit Risk** - Risk of loss resulting from the potential that counterparty defaults or fails to meet obligations in accordance with the agreed terms

**Mitigation measures:** Company mitigates its credit risk by investing maximum in high quality corporate securities and Sovereign Rated Papers. A separate internal body, Credit Council, analyses and reviews all credit risks

- d. Asset Liability Mismatch Risk** - Risk of movement in financial and non-financial factors due to unmatched asset and liability cash flows

**Mitigation measures:** Monitoring the mismatch in cash flows of assets and liabilities and where possible

## Audit & Risk Management

re-balancing the assets to closely match the liabilities both by timing and nature. Sensitivity analysis and scenarios analysis tools are used to measure the extent of any mismatch and using various hedging options to manage dynamic cash flow matching.

**H. Emerging Risks:** Emerging risks are the new or developing risks which can affect the Company's financial strength, competitive position, viability or reputation over medium to long term period but the extent and nature of any potential losses are particularly uncertain due to insufficiency of information. Emerging risks may present a threat or an opportunity for the enterprise as a whole or for a certain business unit or geography. The key categories of emerging risks are:

1. Economic
2. Geopolitical
3. Regulatory/Legal
4. Environmental/Societal
5. Technological

**Mitigation measures:** Various mitigation options are deliberated at Senior Management levels to prevent or reduce the impact of emerging risks. These include conducting a management survey to rank top emerging risks under each of the above five categories and devising broad level mitigation measures to prevent or reduce impact. Since the timing of the risks is uncertain, company's aim is focus on key emerging risks and plan for the resources. These also form the feeder for the ESG framework and preparation of mitigation plans for them.

### **Risk Management Framework:**

HDFC Life is exposed to different types of risks emanating from both internal and external sources. The Company has in place a Risk Management team, to identify, analyse and take measures to mitigate risks faced by the Company. The team is guided by the Company's Risk Management Committee, Risk Management Council and the Senior Management to develop and implement Risk Assurance practices on a pan-organisation basis. The Company has in place a Risk Management policy along with other risk related policies. The Risk Management Policy sets the broad contours of the risk framework, which is used to identify, assess, monitor, review and report risks as well as controls within the Company. The risk management

framework institutionalised in the Company is supported by a "Three Lines of Defense" approach. At HDFC Life, every function has been empowered to drive Risk Management framework in their respective areas of operation and they form the first line of defense. Control functions like Risk Management and Compliance act as second line of defense and are independent from business operations which has been implemented through independent reporting mechanisms. The role of the third line is performed by the Internal Audit function that provides an independent assurance to the Board on the functioning of internal controls. Some of the key building blocks of the Risk management framework are highlighted below

### **Risk appetite framework**

A comprehensive Risk Appetite framework is being set up for the organisation. HDFC Life's Risk appetite outlines the company's principles on acceptable risks and provides key directions for risk-taking and risk controlling as part of implementing HDFC Life's strategy ie achieving targeted performance, providing liquidity and financial flexibility, managing capital adequacy, and protecting and growing enterprise value are some of the key considerations of HDFC Life's Risk appetite framework. Risk appetite considers a broad view of risk encompassing all risks that impact performance. The key objective of the Risk appetite framework is to define statement of risk, key performance measures, target, actual performance, and appetite boundaries which would allow management to monitor whether current risks are within appetite. Such monitoring can trigger conversations on when to revisit decisions, and perhaps appetite or strategy

**Risk Identification** - At the corporate level, risk identification is done by Risk Management Team and identified Risk Owners. The risks are monitored using various risk management tools like RCSA, BIA, fund performance ratios, fraud risk monitoring tools and use of state of art technology systems. Risk tolerances are defined for each of the corporate risks. The risk management team supports in assessing the risks and arriving at aggregation of risks. Additionally, risks identified in the Functional Risk Registers are managed through developing mitigation strategies, and the same are monitored and reported to relevant governance bodies.

Risk assessments are required for major projects, new products, major business practice changes, etc. to ensure that the potential risks are identified and addressed proactively. Risk team's sign off is a mandatory step for

every critical project before going live. This is required to foster a culture of early identification of risks and plan mitigation measures, thus ensuring achievement of process objectives.

Risk Management team conducts regular thematic Risk Reviews based on inputs from Risk Management Committee of the Board, Audit Committee of the Board & Risk Management Council. These reviews include areas under Operations, Finance, Strategy, IT, HR, Investments etc.

**Analysis and Assessment** - As part of the risk analysis, a quantitative and qualitative assessment of all risks at consolidated organisation level is made in order to take into account possible interactions between risks across all fields of business

**Risk Mitigation& Measurement** - In HDFC Life adequate internal controls are established and maintained to control the exposure to each source of risk. This involves the use of different strategies in order to reduce the risks at the business and organisation level.

**Risk monitoring and reporting** - Quantitative risk monitoring based on indicators is carried out both centrally and within units. Risk team reports to the Risk Management Council and has independent reporting to the Risk Management Committee of the Board.

The risk management process is regularly audited by external auditors.

**Risk awareness** - One of the major objectives of risk management is to foster risk culture within the organisation; to achieve this motto risk teams conduct awareness throughout the year by way of Trainings, Workshops, E-mailers, Seminars, Conferences, Quizzes and Special awareness drives

The ERM framework at HDFC Life encompasses a comprehensive set of practices, which has been integrated at a grass root level within all functions serving the core business as well as shared services. These practices have been developed with a centralised approach to ensure uniform implementation. Functions within the Risk Management team, responsible for implementation of Risk Management Practices have been highlighted in the following section.

## A. ERM Function

The team performs activities to identify various risks, assess exposure of the risks, develop control strategies, and report the same on timely basis to the Board and Management. Some of the key activities are

- **Implementation of Risk strategy** - The team ensures that the risk strategy is aligned with the overall risk appetite defined by the Board and Risk Management Committee
- **Implementing Risk Tolerance framework**- Measure, Monitor and adjust as necessary the actual risk positions against the Board approved Risk tolerance levels
- **Developing and monitoring risk registers** - Function wise risks are identified and assessed for ascertaining the current risk score in each function. Key controls are evaluated for a review of risk inherent to each function of the organisation
- **Finalising risk tolerances and metrics for entity and functional level risks** - Tolerances for key risks are defined and monitored on a quarterly basis. This aides in management of key risks and evaluation of controls
- **Operational loss database** - All losses due to operational inefficiencies, human errors, and deficiencies in processes, systems or controls are recorded and monitored in an Operational Loss Database and reported to the Risk Management Council and Committee
- **Incident management** - An incident is any event that is not part of the standard operation of a service and causes, or may cause, an interruption to or reduction in the quality of service. Detailed root cause analysis is carried out for the same by respective stakeholders in conjunction with Risk team, which in turn is reported to the Management with impact assessment and corrective actions
- **Integrating risk management with business decisions** - Pre-launch risk assessments are conducted for key processes/projects and critical processes are monitored on a periodic basis depending on the severity of the process.

## Audit & Risk Management

- **Driving risk awareness** - HDFC Life believes that risk culture is the key to drive a process efficiently and effectively. Thus, risk management training is mandatory for all employees of HDFC Life
- **Operational Risk framework** - The Company has put in place control reports for Operational misses to ensure identification and mitigation or errors and lapses on priority.
- **Outsourcing Risk framework** - Outsourcing risk management framework ensures establishment of prudent practices on management of risks arising out of outsourcing with a view to preventing negative systemic impact and to protect the interests of the policyholders. Outsourcing Committee within the Company monitors risks related to outsourcing.

### B. Financial Risk Management Function:

- **Investment Risk framework** - The company has put in place detailed systems to monitor the portfolio risk and return attribution analysis at a fund and portfolio level along with benchmarking analysis.
- **Interest Rate Risk Management** - Independent checks are carried on some of the insurance parameters like persistency, lapse, mortality which are used to derive future cash flows on the policies, for the purpose of taking decision to hedge the interest rate as well as cash flow mismatch risks.
- **Liquidity Risk Management:** Assessment of market liquidity of the various asset classes in the portfolio is performed to measure and report the secondary market liquidity of those asset classes within the portfolio
- **Tracking market parameters:** The team dynamically tracks the portfolio based on movement of market risk parameters as well as credit risk parameters to proactively monitor and report the risks. The credit rating downgrades and the impact of those downgrades are presented on a regular basis.

### C. Fraud Risk Management

Fraud Risk Management is an integral practice and is central to the ethics and value system of the Company. This is directly influenced by our promises to various

stakeholders be it the policyholders, shareholders, or the regulatory authorities governing the industry and law enforcement agencies of safeguarding their interests. The salient objectives with which the Risk Monitoring & Control Unit ("RMCU", Fraud Risk) operates have been institutionalised below:

- Determine the misconduct and fraud risks that can undermine or negatively impact our strategic objectives
- Design and implement anti-fraud programs and controls which are effective in reducing negative incidents or events
- Reduce the exposure to corporate liability, litigation, and sanctions that may arise from violations of stakeholder expectations and law
- Achieve the utmost levels of business integrity through sound corporate governance, transparency, and robust internal controls

Some key fraud risk management practices adopted by the Organisation are:

- **Values Program** - The Values Program within HDFC Life has been defined with the objective of imbibing the Values of the organisation at all levels starting from senior management to the grass roots level. The program is spearheaded by Chief Value Officer (CVO) and implementation is driven by the Value Ambassadors and Value Guardians

The Value Ambassadors, along with the CVO, undertake an outreach programme on Value awareness, mentor the local leadership and 'own' the branches from 'Values' perspective. The Value Ambassadors are supported by 'Value Guardians' in branches, which helps in embedding the Values in every employee through execution of various Values initiatives. 'Value Guardians' are the first line of oversight at the branches and help spreading awareness on Values and adherence to it.

- **Malpractice Matrix** - The Malpractice Matrix is an integral part of HDFC Life's Code of Conduct. As an ethics-driven organisation, we realise the importance of having a proactive deterrent in place to ensure that any kind of Malpractice is dealt with, at the right time and with the right

action, to ensure minimum adverse impact. The Matrix includes a comprehensive list of malpractices, which we might come across during the course of the Company's operations. Thus, it has been designed to achieve the following objectives:

- To provide a comprehensive framework for monitoring of operational activities
- To take action against the erring parties
- To ensure transparency in dealing with internal and external risks
- **Disciplinary Panel for Malpractices** - A separate panel has been set up comprising of Chief Financial Officer (Chairperson), ED & Chief Distribution Officer, Chief Values Officer, EVP - Audit & Risk Management, Company Secretary & Head - Compliance & Legal, Chief Operating Officer, Chief Human Resource Officer. Cases with high risk and impact are referred to the Panel for guidance and decision. Additionally, fraud risk assessments carried out by the team are also presented to the Panel to apprise them of fraud risks being faced by the Organisation across geographies, channels etc and guidance taken for development of mitigation strategies.
- **Fraud monitoring initiatives:**  
Several initiatives are taken at an organisation level to proactively manage fraud risks within HDFC Life. Some of the key activities include analysis of fraud repository matches, pre-claims assessment and various fraud risk assessments. The main focus of such initiatives is to identify and rectify any instances of fraud or malpractice before it negatively impacts either the policyholders or shareholders of the Company.

**D. Business Continuity Management:** The Business Continuity Management team operates through a standardised methodology, in-line with industry leading practices. The team undertakes Business Impact Analysis (BIA) activity while evaluating the processes and based on the disruption of services customer, financial/non-financial and regulatory impact is assessed. Basis this analysis, Recovery Time Objective (RTO) of business critical services are identified, which defines time within which services need to be made available and Recovery

Point Objective (RPO) is defined which provides maximum targeted period in which data might be lost from a technology service due to an outage or major incident. The Business Continuity Management team draws inferences from these analyses and devises recovery strategies for stress scenarios such as technology unavailability, people unavailability and site unavailability to minimise potential business loss. Additionally, the team conducts periodic drills to ensure effectiveness of derived recovery strategies and focus on continually improving resumption techniques basis the learnings from such drills

#### **E. IT Risk Management, Information & Cyber Security**

Risks related to IT & Information Security are separately assessed (in addition to the operational risk assessments) to help identify, implement and gauge the effectiveness of subsequent controls. The IT Risk management process has been aligned with the ERM framework and works in coherence with the similar principles of risk management. In addition to the existing portfolio of conducting risk assessments, the IT Risk team also manages specialised technical projects (viz. in the area of Data Privacy, etc.) for the organisation.

The Company has a well-defined information security policy including areas of cyber security that ensures all information assets are safeguarded by establishing comprehensive management processes throughout the organisation. Inputs from these activities are put forth in the Information and Cyber Security Council which acts as the internal governance body to monitor and address these risks. The Company has defined the tolerance against the risks pertaining to cyber attacks leading to systems & applications downtime, impact on data integrity and availability due to web defacement, malware or ransomware incidents and compromise of confidentiality of customer and employee records and a process is defined to continuously monitor the systems and applications against each of these risks. The corporate risk on cyber security, data leakage and protection of digital assets gets reported to the Risk Management Committee of the Board on a quarterly basis.

- **Internal Audit Framework**

The role of the third line is performed by the Internal Audit ('IA') function that provides an independent assurance to the Board on the functioning of internal controls.

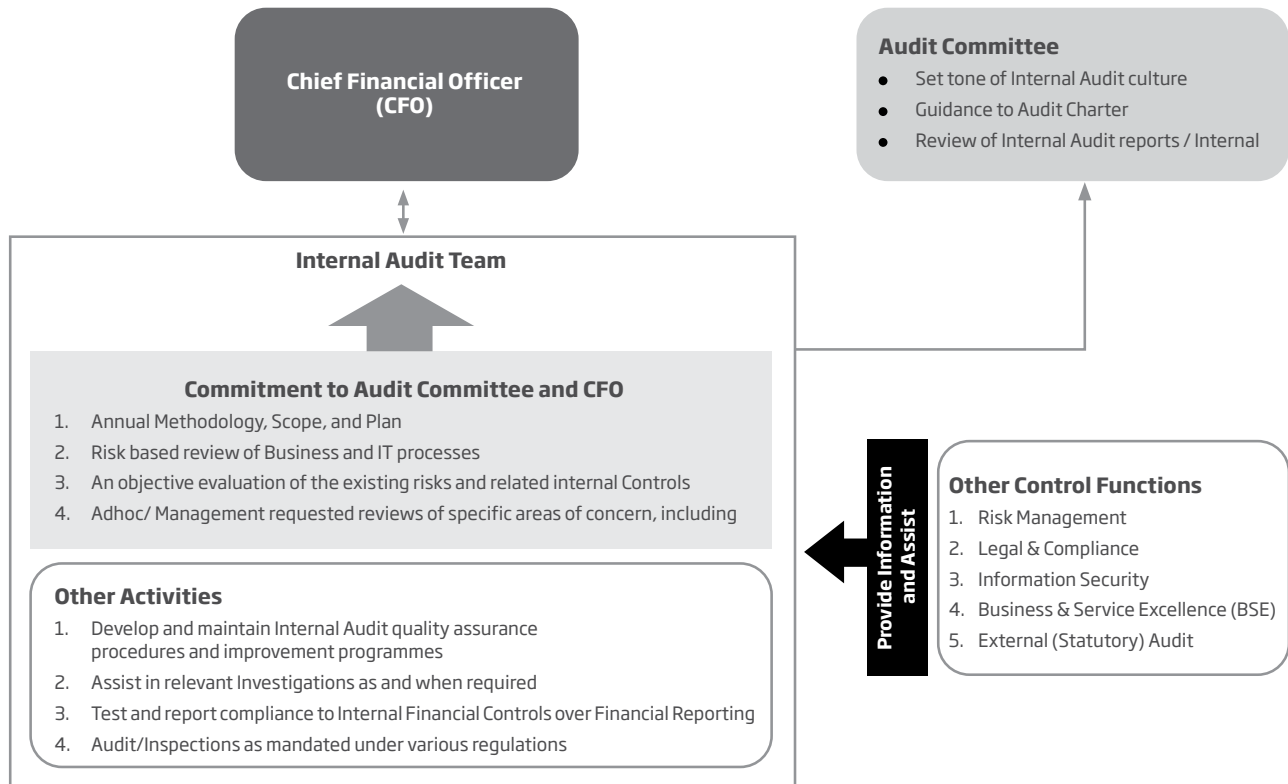

## Audit & Risk Management

The Company has institutionalised a robust and comprehensive internal control mechanism across all the major processes to ensure reliability of financial reporting, timely feedback on achievement of operational and strategic goals, compliance with policies, procedures, laws, and regulations. The Internal Audit team works closely with the Risk teams considering relevant material inputs from RCSAs, Risk prevention and mitigation reports etc. Internal audits are conducted by both the in-house Internal Audit team as well as the co-sourced auditor. The function also undertakes follow-up on audit engagement findings and makes recommendations in line with the approved framework.

Internal Audit Management Framework operates with the following objectives:

- **Scope:** Scope and authority of the Internal Audit activities are well defined in the Internal Audit Charter, approved by the Audit Committee of the Board
- **Approach:** Risk based internal audits are carried out across all departments, functions and branches based on the annual internal audit plan duly approved by the Audit Committee
- **Objective:** To test, objectively and independently, the design and operating effectiveness of the internal control environment
- **Assurance:** To provide independent and reasonable assurance about the adequacy and effectiveness of the Internal Controls to the Board and the Audit Committee
- **Reporting & Monitoring:** The Audit Committee of the Board periodically reviews IA's findings and provides guidance as well. The Management of the Company closely monitors the internal control environment to ensure that IA's recommendations are effectively implemented

### Internal Audit: Governance Structure

### Internal Financial Controls

Statutory Auditors are required to report on the adequacy and operating effectiveness of the internal financial controls ('IFC') over financial reporting. However, ensuring adequacy and operating effectiveness of the internal financial controls system still remains with the Management including Directors, and the persons charged with governance in the Company.

The Company has institutionalised a robust and comprehensive internal control mechanism across all the major processes.

Internal audit function, in addition to providing assurance on compliance to policies, procedures, regulations, processes, etc., also tests and reports on the adequacy and operating effectiveness of internal financial controls over financial reporting.

<b>The 9 principles outlined in the National Voluntary Guidelines are as follows:</b>	
P1	Businesses should conduct and govern themselves with Ethics, Transparency and Accountability - HDFC Life's guidelines on anti-bribery and anti-corruption, transparency and ethical behavior form a part of the <b>Anti Bribery and Anti-corruption policy &amp; the Code of conduct</b>
P2	Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle - HDFC Life promotes sustainable procurement practices and energy efficiency in its operations. This principle has limited applicability considering the nature of business.
P3	Businesses should promote the well-being of all employees - HDFC Life's <b>Code of Conduct, Whistleblower policy and Prevention and Redressal of Sexual Harassment</b> policy together highlight the Company's approach towards providing equal opportunity to all, anti discriminatory approach and adherence to all applicable laws, rules and regulations.
P4	Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalised - HDFC Life's <b>Corporate Governance Policy</b> highlights the importance of respecting the interests of all and being responsible towards all stakeholders and maintaining transparency of disclosures. HDFC Life adheres to the IRDAI guidelines on Financial Inclusion, which are aimed at marginalised and vulnerable stakeholders.
P5	Businesses should respect and promote human rights - HDFC Life's <b>Code of Conduct</b> highlights an anti-discriminatory approach and equal opportunity to all, thereby adhering to the principles in the United Nations' Universal Declaration of Human Rights. The Company also has a dedicated <b>Human Rights</b> policy as well as <b>Diversity, Equity and Inclusion</b> policy.
P6	Business should respect, protect, and make efforts to restore the environment - HDFC Life is conscious about the environment and is compliant under the Hazardous and Other Wastes (Management and Tran-boundary Movement) Rules, 2016 and E-waste (Management), Rules, 2016. The Company has also taken initiatives to improve the energy efficiency and reduce the waste across the branches through dedicated waste management and recycling practices.
P7	Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner - HDFC Life does not take part in any lobbying or policy advocacy.
P8	Businesses should support inclusive growth and equitable development - HDFC Life has a <b>CSR policy</b> which guides all its CSR activities that it undertakes for the marginalised and vulnerable stakeholders and communities.
P9	Businesses should engage with and provide value to their customers and consumers in a responsible manner - HDFC Life's <b>Corporate Governance Policy</b> ensures transparent disclosures of all relevant information to stakeholders, highlights the existence of a Policyholder Protection Committee set up solely for putting in place proper procedures and an effective mechanism for addressing customer complaints and grievances and ensures effective reporting to IRDAI.  The Company also has a <b>Responsible Investment policy</b> in place to ensure that ESG considerations are integrated in the overall investment decisions and create long term value for all the stakeholders.

# Independent Auditors' Report

## To the Members of HDFC LIFE INSURANCE COMPANY LIMITED

### Report on the audit of the Standalone Financial Statements

#### Opinion

- We have audited the standalone financial statements of HDFC Life Insurance Company Limited ("the Company"), which comprise the balance sheet as at March 31, 2022, and the related Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Receipts and Payments Account for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements are prepared in accordance with the requirements of the Insurance Act, 1938 (the "Insurance Act"), Insurance Regulatory and Development Act, 1999 (the "IRDA Act"), Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "Regulations") including orders/directions/circulars issued by the Insurance Regulatory and Development Authority of India ("IRDAI") and the Companies Act, 2013 ("the Act") to the extent applicable and in the manner so required, and give a true and fair view in conformity with the accounting principles generally accepted in India, as applicable to insurance companies:

- in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2022;

- in the case of the Revenue Account, of the net surplus for the year ended on that date;
- in the case of the Profit and Loss Account, of the profit for the year ended on that date; and
- in the case of the Receipts and Payments Account, of the receipts and payments for the year ended on that date.

#### Basis for opinion

- We conducted our audit in accordance with the Standards on Auditing (the "SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the Insurance Act, the IRDA Act, the Regulations, the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key audit matters

- Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed the key audit matter
<p><b>Appropriateness of the Timing of Revenue Recognition in the proper period</b></p> <p>Refer Schedule 1 and Schedule 16A(2) of the standalone financial statement.</p> <p>During the year, the Company has recognised premium revenue of ₹ 24,155 crore towards new business (first year premium and single premium). Out of the total revenue recognised, ₹ 7,080 crore was recognised during the last quarter.</p>	<p><b>Our procedures included the following:</b></p> <ul style="list-style-type: none"> <li>Understood and evaluated the design and tested the operating effectiveness of process and controls relating to recognition of revenue (including testing of key controls for verifying that the revenue has been accrued in the correct accounting period).</li> <li>Tested on a sample basis the policies at the year end to confirm if related procedural compliances with regard to acceptability of the terms of policy were completed before or after the year end to verify appropriate accounting of revenue.</li> <li>Tested on a sample basis to verify that policy sales of the next financial year are not accounted for in the current period.</li> </ul>

## Independent Auditors' Report

Key Audit Matter	How our audit addressed the key audit matter
<p>This area was considered a key audit matter because of the significant concentration of revenue during the last quarter of financial year (including cut-off at the Balance sheet date). Due to the nature of the industry, revenue is skewed towards the balance sheet date. Hence, there is possibility that policy sales of the next financial year are accounted in the current period.</p>	<ul style="list-style-type: none"> <li>• Tested on a sample basis, the unallocated premium to corroborate that there were no policies where risk commenced prior to balance sheet but revenue was not recognised.</li> <li>• Tested the manual accounting journal entries relating to revenue on a sample basis so as to identify unusual or irregular items. We agreed the journal entries tested to supporting evidence.</li> <li>• Tested on a sample basis cheques receipt with the time stamp in case of products like Unit Linked Insurance Plan to confirm the recognition of the revenue in correct accounting period.</li> </ul> <p>Based on the work carried out, we did not come across any material exception which suggests that the revenue recognition is not accounted in the correct period.</p>
<p><b>Appropriateness of the classification and valuation of Investments</b></p> <p>Refer Schedule 8, 8A and 8B of the Financial Statement. For accounting policy, refer Schedule 16A (6) to the financial statements.</p> <p>The Company holds investments against policy holders' liabilities, linked liabilities and shareholders' funds. A significant portion of the assets of the Company is in the form of investments (total investments as at March 31, 2022 is ₹ 204,170 crore).</p> <p>As prescribed by Insurance Regulatory and Development Authority of India (the "IRDAI"), all investments including derivative instruments, should be made and managed in accordance with the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 (the "Investment Regulations") and policies approved by Board of Directors of the Company.</p> <p>Further, investments including derivative instruments (which involves complex calculations to value such instruments) should be valued as prescribed in the Investment Regulations which state the valuation methodology to be used for each class of investment.</p> <p>This area was considered as a key audit matter as the valuation of unlisted or not frequently traded investment involves management judgement. Also, due to events affecting the investee company's rating, there could be a need to reclassify investment and assess its valuation / impairment per the requirements of the Investment Regulations and/ or Company's internal policies.</p>	<p><b>Our procedures included the following:</b></p> <ul style="list-style-type: none"> <li>• Understood Management's process and controls to ensure proper classification and valuation/ impairment of Investment.</li> <li>• Evaluated the design and tested operating effectiveness of the related controls implemented by the management.</li> <li>• Testing of key controls over investment classification and valuation/ impairment</li> <li>• Tested on a sample basis, the correct recording of investments (including derivative instruments), classification and compliance with Investment Regulations and policies approved by the Board of Directors.</li> <li>• Tested on a sample basis the valuation of securities which have been valued in accordance with the Investment Regulations and the Company's accounting policies. We verified the calculations made by management to assess the value of derivative instruments by involving auditor's independent experts.</li> <li>• Tested on a sample basis impairment of securities (including reversal of impairment) which have been impaired / impairment recognised earlier has been (reversed) in accordance with the Investment Regulations and Company's impairment policies.</li> <li>• For unlisted and not frequently traded investments, we evaluated management's valuation model and assumptions and corroborated these with regulatory requirements and the Company's internal policies including impairment.</li> <li>• For an event specific reclassification and valuation, we corroborated management's assessment with the regulatory requirements and the Company's internal policies.</li> </ul> <p>Based on the work carried out, we did not come across any material exception which suggests that the investments were not properly classified or valued.</p>

**Other Matter**

4. The actuarial valuation of liabilities for life policies in-force and policies where premium is discontinued but liability exists as at March 31, 2022 is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"), which has been certified by the Appointed Actuary in accordance with the regulations, as mentioned in paragraph 8 below. Accordingly, we have relied upon the Appointed Actuary's certificate for forming our opinion on the standalone financial statements of the Company. Our opinion is not modified in respect of this matter.

**Other Information**

5. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Chairman's Message, Report on Corporate Governance, Annual Report on Corporate Social Responsibility, Management Discussion and Analysis, Directors' Report including Annexures to Directors' Report and Management Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

**Responsibilities of Management for the Standalone Financial Statements**

6. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, and receipts and payments of the Company in accordance with the requirements of the Insurance Act read with the IRDA Act, the Regulations, order/ directions issued by the IRDAI in this regard and in accordance

with the accounting principles generally accepted in India including the Accounting Standards specified under section 133 of the Act to the extent applicable and in the manner so required. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

**Auditors' responsibilities for the audit of the Standalone Financial Statements**

7. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks,

## Independent Auditors' Report

and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant

ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on other legal and regulatory requirements

8. The actuarial valuation of liabilities for life policies in-force and for policies where premium has been discontinued but liability exists as at March 31, 2022 has been duly certified by the Appointed Actuary. The Appointed Actuary has also certified that, in his opinion, the assumptions for such valuation are in accordance with the generally accepted actuarial principles and practices, requirements of the Insurance Act, regulations notified by the IRDAI and Actuarial Practice Standards issued by the Institute of Actuaries of India in concurrence with the IRDAI;
9. As required by the Regulations, we have issued a separate certificate dated April 26, 2022, certifying the matters specified in paragraphs 3 and 4 of Schedule C to the Regulations.

  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion and to the best of our information and according to the explanations given to us, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) As the Company's financial accounting system is centralised at Head Office, no returns for

the purposes of our audit are prepared at the branches and other offices of the Company.

- d) The Balance Sheet, the Revenue Account, the Profit and Loss Account, and the Receipts and Payments Account dealt with by this Report are in agreement with the books of accounts.
- e) In our opinion and to the best of our information and according to the explanations given to us, investments have been valued in accordance with the provisions of the Insurance Act and the Regulations and orders/directions issued by the IRDAI in this behalf.
- f) In our opinion and to the best of our information and according to the explanations given to us, the accounting policies selected by the Company are appropriate and are in compliance with the Accounting Standards referred to in Section 133 of the Act, to the extent they are not inconsistent with the accounting principles prescribed in the Regulations and orders/directions issued by the IRDAI in this behalf.
- g) In our opinion and to the best of our information and according to the explanations given to us, the Balance Sheet, the Revenue Account, the Profit and Loss Account and the Receipts and Payments Account dealt with by this report comply with the Accounting Standards referred to in Section 133 of the Act, to the extent they are not inconsistent with the accounting principles prescribed in the Regulations and orders/directions issued by IRDAI in this regard.
- h) On the basis of the written representations received from the directors as on March 31, 2022, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022, from being appointed as a director in terms of Section 164 (2) of the Act.
- i) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure A".
- j) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our

information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Schedule 16B(1) and Schedule 16B(2) to the standalone financial statements;
- ii. The Company has made provision as at March 31, 2022, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long- term contracts including derivative contracts - Refer Schedule 16B(15) and Schedule 16C(18) to the standalone financial statements.
- iii. There are no amounts which are required to be transferred to the Investor Education and Protection Fund by the Company for the year ended March 31, 2022.

# Annexure A to Independent Auditors' Report

Referred to in paragraph 10 (i) of the Independent Auditors' Report of even date to the members of HDFC Life Insurance Company Limited on the standalone financial statements for the year ended March 31, 2022.

## Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to financial statements of HDFC Life Insurance Company Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

## Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

## Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

## Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

### **Inherent Limitations of Internal Financial Controls with reference to financial statements**

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively

as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### **Other Matters**

9. The actuarial valuation of liabilities for life policies in force and policies where premium is discontinued but liability exists as at March 31, 2022 is required to be certified by the Appointed Actuary as per the regulations, and has been relied upon by us, as mentioned in para 4 and 8 of our audit report on the standalone financial statements for the year ended March 31, 2022. Accordingly, our opinion on the internal financial controls over financial reporting does not include reporting on the operating effectiveness of the management's internal controls over the valuation and accuracy of the aforesaid actuarial valuation.

**VI. Interest Rate Derivatives**

Interest rate derivative (IRD) contracts for hedging of highly probable forecasted transactions on insurance contracts and investment cash flows in life, pension and annuity business, are accounted for in the manner specified in accordance with 'Guidance Note on Accounting for Derivative Contracts (Revised 2021)' issued by the Institute of Chartered Accountants of India (ICAI) as revised in July 2021 effective from FY 2016-17 and IRDAI Investment Master Circular issued in May 2017.

At the inception of the hedge, the Company documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter at Balance Sheet date.

The Forward Rate Agreement (FRA) contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from the SEBI approved rating agency and present value of contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till FRA contract settlement date, at applicable INR-Overnight Interest Swap (OIS) rate curve.

## Schedules

The Interest Rate Futures (IRF) are exchange traded derivative instrument and valued at closing settlement prices published by primary stock exchange.

The portion of fair value gain/loss on the IRD that is determined to be an effective hedge is recognised directly in appropriate equity account i.e. 'Hedge Reserve' under the head 'Credit/(Debit) Fair Value Change Account' under policyholder's fund in the Balance Sheet and the portion of IRD fair value gain/loss that gets determined as ineffective hedge or ineffective portion of effective hedge, basis the hedge effectiveness assessment is recognised in the Revenue Account.

The accumulated gains or losses that were recognised directly in the Hedge Reserve are reclassified into Revenue Account, in the same period during which the income from hedged forecasted cash flows affect the Revenue Account (such as in the periods that income on the investments acquired from underlying forecasted cashflow is recognised in the Revenue Account). In the event that all or any portion of loss or gain, recognised directly in the Hedge Reserve is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Revenue Account. Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account. Costs associated with derivative contracts are considered as at a point in time cost.

### C) Impairment of investments

The Company periodically assesses at each Balance Sheet date, whether there is any indication of impairment of investments or reversal of impairment loss earlier recognised. An impairment loss is accounted for as an expense and disclosed under the head 'Provision for diminution in the value of investment (net)' in the Revenue Account or the Profit and Loss Account to the extent of the difference between the remeasured fair value of the investments and its weighted acquisition cost as reduced by any earlier impairment loss accounted for as an expense in the Revenue Account or the Profit and Loss Account.

Any reversal of impairment loss, earlier recognised for in the Revenue Account or the Profit and Loss Account, is accounted in the Revenue Account or the Profit and Loss Account respectively.

### D) Provision for Non Performing Assets (NPA)

All assets where the interest and/or installment of principal repayment remain overdue for more than 90 days at the Balance Sheet date are classified as NPA

and provided for in the manner required by the IRDAI regulations on this behalf.

In line with Guidelines on prudential norms for income recognition, asset classification, provisioning and other related matters in respect of debt portfolio, the Company has provided minimum percentage on the value of the standard assets.

### E) Transfer of investments from Shareholders' fund to Policyholders' fund

Transfers of investments, other than debt securities, as and when made from the Shareholders' fund to the Policyholders' fund to meet the deficit in the Policyholders' account are made at the cost price or market price, whichever is lower.

Transfers of debt securities, from the Shareholders' fund to the Policyholders' fund are made at the net amortised cost or the market value, whichever is lower.

### F) Transfer of investments between non-linked Policyholders' funds

No transfers of investments are made between non-linked Policyholders' funds.

### G) Purchase and sale transactions between unit linked funds

The purchase and sale of equity, preference shares, ETF's, InvIT's, REITs and Government Securities between unit linked funds is accounted for at the prevailing market price on the date of purchase or sale of investments, if prevailing market price of any security is not available on the date of transfer of investment, then the last available price is considered.

In case of debt securities other than Government Securities, transfer of investments is accounted at previous day valuation price w.e.f. January 1, 2017 (applicable date of IRDAI (Investment) Regulations, 2016).

### 7. Policy liabilities

The actuarial liabilities, for all inforce policies and policies where premiums are discontinued but a liability exists as at the valuation date, are calculated in accordance with the generally accepted actuarial principles and practices, requirements of Insurance Act, 1938 as amended from time to time including amendment brought by the Insurance Laws (Amendment) Act, 2015, regulations notified by the IRDAI and Actuarial Practice Standard (APS) issued by the Institute of Actuaries of India with the concurrence of the IRDAI.

The specific principles adopted for the valuation of policy liabilities are set out as per the IRDA (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016 and the APS2 & APS7 issued by the Institute of Actuaries of India.

A brief of the methodology used for various lines of business is as given below:

1. The policy liabilities are valued on policy by policy basis, i.e. each policy is valued separately.
2. The reserves for linked business (individual and group) comprise unit reserves and non-unit reserves. The unit reserves are determined on the basis of NAV of the units outstanding as at the valuation date and non-unit reserves are calculated using gross premium valuation method.
3. The liabilities for individual non-linked non-participating and participating business are calculated using gross premium valuation method and are subject to the minimum floor of surrender value. Additionally, individual non-linked participating policies also have a reference to the asset share of policies at valuation date.
4. The liabilities for one year renewable group protection business are calculated on the unexpired risk premium basis. For other than one year renewable group protection business, the liabilities are calculated using gross premium valuation method.
5. The liabilities for the group non-linked savings products are determined as the higher of policy account balances (including accrued interest/bonuses) and reserves calculated by gross premium valuation method.
6. The liabilities in respect of rider benefits are determined as the higher of unexpired premium reserves and reserves calculated by gross premium valuation method.
7. Additional reserves are determined to:
  - a. allow for the claims that may have occurred already but not yet reported (Incurred But Not Reported)
  - b. allow for the servicing of existing policies if the Company were to close the new business one year from the valuation date (Closure to New Business)
  - c. meet the expected liabilities that would arise on the revival of lapsed policies, on the basis of the proportion of the policies expected to be revived based on the revival experience of the Company (Revival Reserve)

- d. allow for the additional amount required to be paid on account of cancellation of policies due to look-in on the basis of the proportion of the policies expected to exercise the look-in option based on the experience of the Company (Look-in Reserve)
- e. allow for the cost of guarantees, wherever applicable

## 8. Borrowings

As per Accounting Standard (AS) 16, "Borrowing Costs" the Company has capitalised the borrowings undertaken during the year. Borrowings costs includes other costs incurred by the company in connection with borrowing of funds. Such borrowing costs are recognised as an expense in the period in which they are incurred.

## 9. Funds for Future Appropriations

The Funds for Future Appropriations (FFA), in the participating segment, represents the surplus, which is not allocated to policyholders or shareholders as at the Balance Sheet date. Transfers to and from the fund reflect the excess or deficit of income over expenses respectively and appropriations in each accounting period arising in the Company's Policyholders' Fund. Any allocation to the par policyholders would also give rise to a transfer to Shareholders' Profit and Loss Account in the required proportion.

## 10. Unclaimed amount of policyholders

Assets held for unclaimed amount of policyholders are created and maintained in accordance with the requirement of Master circular on Unclaimed Amount of Policyholders (Ver 02) IRDA/F&A/CIR/Misc/282/11/2020 dated November 17, 2020 and Investment Regulations, 2016 as amended from time to time:

- a) Unclaimed amount of policyholders liability is determined on the basis of NAV of the units outstanding as at the valuation date and is disclosed in Schedule 13 "Current Liabilities" in Balance Sheet with a separate line item for Income on unclaimed fund.
- b) The Company maintains a single segregated fund to manage all unclaimed amounts and the sum of such fund is invested in money market instruments, liquid mutual funds and / or fixed deposits of scheduled banks which is valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis. Such assets of unclaimed amount of policyholders is disclosed in Schedule 12 "Advances and Other Assets" in Balance Sheet with a separate line item for Income on unclaimed fund. Corresponding income for the

## Schedules

year is shown under "Income on Unclaimed amount of Policyholders" under "Other Income" in Revenue Account.

- c) Income earned on unclaimed amount of policyholders is accreted to respective unclaimed fund and is accounted for on an accrual basis, net of fund management charges and is disclosed under the head "Interest on unclaimed amount of policyholders" in Schedule 4 "Benefits paid" in Revenue Account.
- d) Amounts remaining unclaimed for a period of 10 years along with all respective accretions to the fund are deposited into the Senior Citizen Welfare Fund (SCWF) as per requirement of IRDAI regulations.

### 11. Fixed assets and depreciation/amortisation

The fixed assets are stated at cost less accumulated depreciation and impairment, if any. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use. Fixed assets individually costing less than ₹ 5,000, being low value assets are fully depreciated in the month of purchase. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets. Any additions to the original fixed assets are depreciated over the remaining useful life of the original asset.

Depreciation/amortisation is charged on pro-rata basis from the month in which the asset is put to use and in case of asset sold, up to the previous month of sale. In respect of expenditure incurred on acquisition of fixed assets in foreign exchange, the net gain or loss arising on conversion/settlement is recognised in the Revenue Account.

#### Tangible assets

The Company has adopted straight line method of depreciation so as to depreciate the cost of following type of assets over the useful life of these respective assets which are as follows:

Asset class	Useful life of assets (years)
Building	60
Information technology equipment-End user devices <sup>^</sup>	3
Information technology equipment-Servers and network <sup>*^</sup>	4
Furniture & Fixtures <sup>*^</sup>	5
Motor Vehicles <sup>*^</sup>	4
Office Equipment <sup>^</sup>	5

\* For these class of assets, based on internal and/or external assessment/ technical evaluation carried out by the management, the management believes that the useful lives as mentioned above best represent the useful life of these respective assets, however these are lower than as prescribed under Part C of Schedule II of the Companies Act, 2013.

<sup>^</sup> For these class of assets, based on internal assessment carried out by the management, the residual value at the end of life being very negligible is considered to be nil.

Leasehold improvements are depreciated over the lock in period of the leased premises subject to a maximum of five years.

#### Intangible assets

Intangible assets comprising of computer software are stated at cost of acquisition, including any cost attributable for bringing the same to its working condition for its intended use, less accumulated amortisation and impairment, if any. These are amortised over the useful life of the software using straight line method subject to a maximum of four years. Subsequent expenditure incurred on existing assets is expensed out except where such expenditure increases the future economic benefits from the existing assets, in which case the expenditure is amortised over the remaining useful life of the original asset.

Any expenditure for support and maintenance of the computer software is charged to the Revenue Account.

#### Capital work in progress:

Cost of assets as at the Balance Sheet date not ready for its intended use as at such date are disclosed as capital work in progress. Advances given towards acquisition of fixed assets are disclosed in 'Advance and other assets' in Balance Sheet.

### 12. Impairment of assets

The Company periodically assesses, using internal and external sources of information and indicators, whether there is any indication of impairment of asset. If any such indication of impairment exists, the recoverable amount of such assets is estimated. An impairment loss is recognised where the carrying value of these assets exceeds its recoverable amount. The recoverable amount is the higher of the asset's net selling price and their value in use, which is the present value of the future cash flows expected to arise from the continuing use of asset and its ultimate disposal. When there is an indication that an impairment loss recognised for an asset in earlier accounting periods is no longer necessary or may have decreased, such reversal of impairment loss is recognised, except in case of revalued assets.

### 13. Loans

Loans are valued at historical cost (less repayments), subject to adjustment for accumulated impairment losses and provision for NPA, if any.

#### 14. Foreign currency transactions

In accordance with the requirements of Accounting Standard (AS) 11, "The Effects of Changes in Foreign Exchange Rates", transactions in foreign currency are recorded in Indian Rupees at the rate of exchange prevailing on the date of the transaction, at the time of initial recognition. Monetary items denominated in foreign currency are converted in Indian Rupees at the closing rate of exchange prevailing on the Balance Sheet date. Non-monetary items like fixed assets, which are recorded at historical cost, denominated in foreign currency, are reported using the closing exchange rate at the date of transaction. Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation, are reported using exchange rates that existed when the values were determined.

Exchange gains or losses arising on such conversions or on settlement are recognised in the period in which they arise either in the Revenue Account or the Profit and Loss Account, as the case may be.

#### 15. Segmental reporting

##### Identification of segments

As per Accounting Standard (AS) 17 on "Segment Reporting", read with the Financial Statements Regulations, the Company has prepared the Revenue Account and the Balance Sheet for the primary business segments namely Participating Life (Individual & Group), Participating Pension (Individual & Group), Participating Pension Group Variable, Non Participating Life (Individual & Group), Non Participating Pension (Individual & Group), Non Participating Life Group Variable, Non Participating Pension Group Variable, Non Participating -Individual & Group Annuity, Non Participating -Individual & Group Health, Unit Linked - Individual Life, Unit Linked - Individual Pension, Unit Linked - Group Life, Unit Linked - Group Pension. Since the business operations of the Company are given effect to in India and all the policies are written in India only, this is considered as one geographical segment.

##### Allocation / Apportionment methodology

The allocation of revenue, expenses, assets and liabilities to the business segments is done on the following basis:

- a) Revenue, expenses, assets and liabilities, which are directly attributable and identifiable to the respective business segments, are directly allocated for in that respective segment; and

- b) Revenue, expenses which are not directly identifiable to a business segment though attributable, other indirect expenses, assets and liabilities which are not attributable to a business segment, are apportioned based on one or combination of some of the following parameters, as considered appropriate by the management in adherence with the policy approved by the board of directors :

- i) effective premium income
- ii) number of policies
- iii) number of employees
- iv) man hours utilised
- v) premium income
- vi) commission
- vii) sum assured
- viii) mean fund size
- ix) operating expenses
- x) benefits paid

The accounting policies used in segmental reporting are the same as those used in the preparation of the financial statements.

#### 16. Employee benefits

##### A) Short term employee benefits

All employee benefits payable within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries and bonuses, short term compensated absences, premium for staff medical insurance (hospitalisation), premium for Employee Group Term Insurance Scheme, Employee State Insurance Corporation Scheme, Employee Deposit Linked Insurance Scheme and Employee Labour Welfare Fund Scheme are accounted for in the period in which the employee renders the related service. All short term employee benefits are accounted for on an undiscounted basis.

##### B) Post-employment benefits

The Company has both defined contribution and defined benefit plans.

###### (i) Defined contribution plans:

The Superannuation Scheme, Employee Provident Fund Scheme (Company contribution) and the National Pension Scheme (Company contribution) are the defined contribution plans. The contributions paid/payable under the plan are made when due and charged to the Revenue

## Schedules

Account and the Profit and Loss Account on an undiscounted basis during the period in which the employee renders the related service. The Company does not have any further obligation beyond the contributions made to the funds.

(ii) **Defined benefit plans:**

The Gratuity plan of the Company is the defined benefit plan, which is a funded plan. The gratuity benefit payable to the employees of the Company is in compliance with the provisions of 'The Payment of Gratuity Act, 1972. The present value of the obligations under such defined benefit plan is determined on the basis of actuarial valuation using the projected unit credit method, which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The discount rate used for actuarial valuation is based on the yield of Government Securities. The Company fully contributes the net ascertained liabilities under the plan to the HDFC Life Insurance Company Limited Employees Group Gratuity Plan. The Company recognises the net defined benefit obligation of the gratuity plan, taking into consideration the defined benefit obligation using actuarial valuation and the fair value of plan assets at the Balance Sheet date, in accordance with Accounting Standard (AS) 15 (Revised), 'Employee Benefits'. Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial assumptions are accounted for in the Revenue Account, in the period in which they arise.

**C) Other long term employee benefits**

Other long term employee benefits include accumulated long term compensated absences and long term incentive plans.

Accumulated long term compensated absences are entitled to be carried forward for future encashment or availment, at the option of the employee subject to Company's policies and are accounted for based on actuarial valuation determined using the projected unit credit method.

Long term incentives plans are subject to fulfilment of criteria prescribed by the Company and are accounted for at the present value of future expected benefits payable using an appropriate discount rate.

Actuarial gains or losses, if any, due to experience adjustments and the effects of changes in actuarial

assumptions are accounted for in the Revenue Account, as the case may be, in the period in which they arise.

**17. Employee Stock Option Scheme (ESOS)**

The Company has formulated Employee Stock Option Scheme 2005 (ESOS 2005), Employee Stock Option Scheme 2010 (ESOS 2010), Employee Stock Option Scheme 2011 (ESOS 2011), Employee Stock Option Scheme 2012 (ESOS 2012) and, ESOS (Trust) 2017 which are administered through the HDFC Life Employees Stock Option Trust ("the Trust") and Employee Stock Option Scheme 2014 (ESOS 2014), Employees Stock Option Scheme (ESOS 2015), Employee Stock Option Scheme 2016 (ESOS 2016), Employee Stock Option Scheme 2017 (ESOS 2017), Employees Stock Option Scheme 2018 (ESOS 2018) and Employees Stock Option Scheme 2019 (ESOS 2019) which are directly administered by the Company. The schemes provide that eligible employees are granted options that vest in a graded manner to acquire equity shares of the Company. The options are accounted for on an intrinsic value basis in accordance with the Guidance Note on Accounting for Employee Share based Payments, issued by the Institute of Chartered Accountants of India (ICAI). The intrinsic value is the amount by which the fair value of the underlying share exceeds the exercise price of an option on the grant date. For all grants issued up to ESOS 2016, the fair value of the underlying share is as determined by an independent valuer. The fair market price in case of all grants issued after ESOS 2016 is the latest closing price, immediately prior to the grant date, on the stock exchange on which the shares of the Company are listed. If the shares are listed on more than one stock exchange, then the stock exchange which records the highest trading volume on the date, immediately prior to the grant date is considered. The intrinsic value of options, if any, at the grant date is amortised over the vesting period.

**18. Provisions, contingent liabilities and contingent assets**

Provisions are accounted for in respect of present obligations arising out of past events where it is probable that an outflow of resources will be required to settle the obligation and the amounts of which can be reliably estimated. Provisions are determined on the basis of best estimate of the outflow of economic benefits required to settle the obligation at the Balance Sheet date. Where no reliable estimate can be made, a disclosure is made as contingent liability.

Contingent liabilities are disclosed in respect of;

- a) possible obligations arising out of past events, but their existence or otherwise would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or
- b) Present obligations that arise from past events, where it is probable but not likely that an outflow of resources embodying economic benefits will be required to settle the obligations or a reliable estimate of the amounts of the obligations cannot be made.

Where there is a possible obligation or a present obligation where the likelihood of outflow of resources is remote, no provision is recognised nor disclosure is made

Contingent assets are neither accounted for nor disclosed.

## 19. Leases

### A) Finance leases

Leases under which the lessee assumes substantially all the risk and rewards of ownership of the asset are classified as finance leases. Such leased asset acquired are capitalised at fair value of the asset or present value of the minimum lease rental payments at the inception of the lease, whichever is lower.

### B) Operating leases

Leases where the lessor effectively retains substantially all the risk and the benefits of ownership over the lease term are classified as operating leases. Leased rental payments under operating leases including committed increase in rentals are accounted for as an expense, on a straight line basis, over the non-cancellable lease period.

## 20. Taxation:

### A) Direct tax

#### I) Provision for income tax

Provision for income tax is made in accordance with the provisions of Section 44 of the Income Tax Act, 1961 read with Rules contained in the First Schedule and other relevant provisions of the Income Tax Act, 1961 as applicable to a Company carrying on life insurance business.

#### II) Deferred tax

In accordance with the provisions of the Accounting Standard (AS) 22, "Accounting for Taxes on Income", with respect to the carry forward of losses under the Income Tax regulations, the deferred tax asset is recognised only to the extent that there is a virtual certainty supported by convincing evidence that future taxable income will be available against which the deferred tax asset can be realised.

### B) Indirect tax

The Company claims credit of Goods and Services Tax on input services, which is set off against Goods and Services Tax on output services. Unutilised credits, if any, are carried forward under "Advances and other assets" for future set off and are deferred for recognition to the extent there is reasonable certainty that the assets can be realised in future.

## 21. Earnings per share

In accordance with the requirement of Accounting Standard (AS) 20, "Earnings Per Share", basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are treated as dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations.

## 22. Cash and cash equivalents

Cash and cash equivalents for the purposes of Receipts and Payments Account comprise of cash and cheques in hand, bank balances, fixed deposits with original maturity of three months or less, Reverse Repo, highly liquid mutual funds and highly liquid investments that are readily convertible into measurable amounts of cash and which are subject to insignificant risk of change in value. Receipts and Payments Account is prepared and reported using the Direct Method in accordance with Accounting Standard (AS) 3, "Cash Flow Statements" as per requirements of Para 2.2 of the Master Circular.

#### 2. Pending litigations

The Company's pending litigations other than those arising in the ordinary course of insurance business comprise of claims against the Company primarily on account of proceedings pending with Tax authorities and Claims, under policies, not acknowledged as debts (net of reinsurance). The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required

and disclosed the contingent liabilities as applicable, in note 1 of Schedule 16 (B). The Company does not expect the outcome of these proceedings to have a material adverse effect on its financial results at March 31, 2022.

#### 3. Actuarial assumptions

The policyholders' actuarial liabilities are determined based on assumptions as to the future experience of the policies. The principal assumptions are related to interest, expenses, mortality, morbidity, persistency, and additionally in the case of participating policies, bonuses and tax. The assumptions are based on prudent estimates of the future experience, and hence include margins for adverse deviations over and above the best estimate assumptions. A brief of the assumptions used by the Appointed Actuary in actuarial valuation is as below:

##### a) Interest rate assumptions:

The valuation rate of interest is determined based on the expected return on existing assets, current asset mix, expected investment return on the future investment taking into consideration the asset classes mix and expected future asset mix. The interest rates used for the valuation vary according to the type and term of the product & status of policy and are presented in the table below.

Line of business	Valuation basis as at March 31, 2022		Valuation basis as at March 31, 2021	
	Maximum	Minimum	Maximum	Minimum
Individual:				
Life - Participating policies	6.10%	5.80%	5.80%	5.70%
Life - Non-participating policies	6.50%	5.20%	6.50%	5.20%
Annuities - Non-participating policies	6.45%	6.45%	6.45%	6.45%
Unit Linked	5.20%	5.20%	5.20%	5.20%
Health insurance	6.50%	5.90%	6.50%	5.90%
Group:				
Life - Non-participating policies (other than one year term policies) *	6.45%	5.90%	6.45%	5.95%
Unit linked	5.20%	5.20%	5.20%	5.20%

\* Interest rate assumption for Group Fund based products are based on amortised yields of assets underlying funds.

#### b) Expense assumptions:

The expense assumptions are set on the basis of the expense analysis. These are fixed renewal expenses (prescribed below as at March 31, 2022 and March 31, 2021 respectively) and investment expenses charged as a % of fund.

Premium frequency / period	(₹)									
	Annual		Half yearly		Quarterly		Monthly		Single/Paid-up	
	Mar-22	Mar-21	Mar-22	Mar-21	Mar-22	Mar-21	Mar-22	Mar-21	Mar-22*	Mar-21
Renewal expense	779	780	868	868	1,044	1,040	1,183	1,182	632	630

\*The fixed expense assumption for Annuity line of business is ₹ 203.

\*The fixed expense assumption for Non- Par line of business is ₹ 120.

Claim expenses assumption is ₹ 151 per maturity/surrender claim and ₹ 2,735 for death claim at March 31, 2022 (₹ 143 per maturity/surrender claim and ₹ 2,580 for death claim as at March 31, 2021). The renewal and claim expenses are increased at an inflation rate of 6.0 % p.a.(for the year ended March 31, 2021: 6.0% p.a)

#### c) Mortality assumptions:

Mortality assumptions are set in accordance with Clause 5(2) of Schedule II of the IRDAI (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016, in reference to the published Indian Assured Lives mortality (2012-14) and are based on the latest experience analysis of the business.

In the case of annuity benefits, mortality assumption is based on the Indian Individual Annuitant's Mortality Table (2012-15).

#### d) Morbidity assumptions:

Morbidity assumptions are set in accordance with Clause 5(3) of Schedule II of the IRDAI (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016, in reference to the published CIBT 93 Table and are based on the latest experience analysis of the business.

#### e) Persistency assumptions:

The persistency assumptions are also based on the most recent experience of the Company and

vary according to the premium frequency and type of the product.

#### f) Provision for free-look period:

If a policy which is in force as at the valuation date is subsequently cancelled in the free-look period, then there could be a strain in the policyholder fund on account of the amount payable on free-look cancellation, to the extent the amount is higher than reserves held for that policy. In order to avoid the future valuation strain as a result of the free-look cancellations, reserves on account of the above are held. The free-look reserve is calculated as total strain for all policies that are eligible for free-look cancellations at the valuation date, multiplied by a factor, representing the expected assumptions for free-look cancellations.

#### g) Bonus rates:

The bonus rates for the participating business as required to be declared in the future is based on the interest expected to be earned as per the valuation assumptions.

#### h) Tax:

The tax rate as applicable to insurance companies carrying on insurance business is 14.56% p.a. (For the year ended March 31, 2021 14.56% p.a.)

## 5. Employee Stock Option Scheme (ESOS)

- (i) The Company has granted options to employees under the ESOS 2005, ESOS 2010, ESOS 2011 and ESOS 2012 and ESOS (Trust) 2017 schemes. These schemes are administered by the HDFC Life Employees Stock Option Trust. The Trust had subscribed to the capital of the Company and also acquired shares of the Company from Housing Development Finance Corporation Limited, the holding Company then. The options are granted to the employees from these tranches of shares. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The exercise price of ESOS 2005 is based on the holding cost of the shares in the books of the Trust and that of ESOS 2010, ESOS 2011 and ESOS 2012 is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI. The exercise price, of the options granted under ESOS (Trust) 2017 is based on the market price of the shares of the Company, as defined in the ESOS (Trust) 2017 scheme. There are no options outstanding or exercisable for ESOS 2005, ESOS 2010 and ESOS 2011 as of March 31, 2022 and as of March 31, 2021.
- (ii) The Company has also granted options to its employees under the ESOS 2014 scheme, ESOS 2015 scheme, ESOS 2016 scheme, ESOS 2017, ESOS 2018 and ESOS 2019 schemes. The said schemes are directly administered by the Company. For all the grants, the mode of settlement is through equity shares. All the grants have graded vesting. The exercise price of ESOS 2014, ESOS 2015 and of ESOS 2016 schemes is based on the fair market value as determined by the Category I Merchant Banker registered with SEBI. The exercise price, of the options granted under ESOS 2017, ESOS 2018 and ESOS 2019 is based on the market price of the shares of the Company, as defined in the respective ESOS scheme.
- (iii) The Company follows the intrinsic value method of accounting for stock options granted to employees. The intrinsic value of the options issued under the above referred schemes is 'Nil' as the exercise price of the option is the same as fair value of the underlying share on the grant date and accordingly, no expenses are recognised in the books. Had the Company followed the fair value method for valuing its options,

the charge to the Revenue Account/Profit & Loss Account for the year would have been aggregated to ₹ 2,26,406 thousands (Previous year ended March 31, 2021 ₹ 5,25,995 thousands) and the profit after tax would have been lower by ₹ 1,31,965 thousands (Previous year ended March 31, 2021 ₹ 2,90,839 thousands). Consequently, Company's basic and diluted earnings per share would have been ₹ 5.84 and ₹ 5.84 respectively (Previous year: ₹ 6.59 and ₹ 6.58 respectively).

- (iv) Exercise Period under the various ESOS:

The Company's shares were listed on National Stock Exchange of India Limited (NSE) and BSE Limited (BSE) on November 17, 2017. Prior to listing, for all grants issued under the ESOS 2010, ESOS 2011, ESOS 2012, ESOS 2014, ESOS 2015 and ESOS 2016 schemes, the vested options were required to be exercised by the employees within five years from the date of vesting or the date of an Initial Public Offering (IPO) whichever is later subject to the norms prescribed by the Nomination & Remuneration Committee. Post listing of the Company's shares, vested options under all ESOS schemes are required to be exercised by the employees within five years from the date of vesting subject to the norms prescribed by the Nomination & Remuneration Committee.

Salient features of all the existing grants under the various schemes are as stated below:

#### Method of computation of fair value of options:

The fair value of options has been calculated using the Black-Scholes model. The key assumptions used in Black-Scholes model for calculating fair value of options as on the date of grant are as follows:

Assumptions	Basis of Assumptions
Risk free interest rate	Determined basis G-sec yield on the grant date corresponding to maturity period equal to expected life of options
Expected life of options (years)	Average of the weighted average time to vesting and the contractual life of options
Expected volatility	Based on historical stock prices using annualised standard deviation of daily change in stock price
Expected dividend yield	Calculated based on recent rate of dividend declared

The ESOS scheme-wise ranges of values for the assumptions are as follows:

ESOS Scheme	Risk Free Interest Rate	Expected Life of Options	Expected Volatility*	Expected Dividend Yield
ESOS 2012	8.19% - 8.74%	1.37 - 3.45 years	30.44% - 36.53%	0.00%
ESOS 2014	7.73% - 8.28%	1.75 - 3.75 years	33.23% - 37.15%	1.06%
ESOS 2015	7.41% - 7.58%	1.75 - 3.75 years	34.21% - 38.38%	1.04%
ESOS 2016	6.57% - 6.80%	1.75 - 3.75 years	10.00%	0.88%
ESOS 2017	6.76% - 7.27%	1.75 - 3.75 years	28.96%	0.74%
ESOS (Trust) 2017	6.76% - 7.27%	1.75 - 3.75 years	28.96%	0.74%
ESOS 2018	8.02% - 8.15%	1.74 - 3.74 years	29.09%	0.40%
ESOS 2019	4.43% - 6.34%	1.68 - 5.09 years	29.12% - 39.73%	0.23% to 0.41%

\*Volatility of share price of a matured enterprise in the industry which is listed on BSE Limited till the date of listing and volatility of share price of the Company from the date of listing have been used as a basis for estimation of expected volatility of options. In the case of ESOS 2016, the expected volatility has been assumed at the rate of 10% since the company was unlisted as on the date of the grant

#### 15. Derivative contracts:

In accordance with the IRDAI circular no. IRDA/F&I/INV/CIR/138/06/2014 dated June 11, 2014 ('the IRDAI circular on Interest Rate Derivatives') and IRDAI Investment Master Circular issued in May 2017 allowing insurers to deal in rupee interest rate derivatives, the Company has in place a derivative policy approved by Board which covers various aspects that apply to the functioning of the derivative transactions undertaken to substantiate the hedge strategy to mitigate the interest rate risk, thereby managing the volatility of returns from future fixed income investments, due to variations in market interest rates.

- a) The Company has during the year, as part of its Hedging strategy, entered into Forward Rate Agreements (FRA) and Interest Rate Futures (IRF) transactions to hedge the interest rate sensitivity for highly probable forecasted transactions as permitted by the IRDAI circular on Interest Rate Derivatives.

FRA derivative contracts are over-the-counter (OTC) transactions and IRF are exchange trade standard contracts, agreeing to buy notional value of a debt security or Government Bond (GOI) at a specified future date, at a price determined at the time of the contract with an objective to lock in the price of an interest bearing security at a future date.

The Forward Rate Agreement (FRA) contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from the SEBI approved rating agency and present value of contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till FRA contract settlement date, at applicable INR-OIS rate curve.

The Interest Rate Futures (IRF) are exchanged traded derivative instrument and valued at closing settlement prices published by primary stock exchange.

## a) Fixed Income Derivative Hedging instruments:

Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. These include forward rate agreements, interest rate swaps and interest rate futures.

The Company during the financial year has entered into FRA and IRF derivative instrument to minimise exposure to fluctuations in interest rates on plan assets and liabilities. This hedge is carried in accordance with its established policies, goals and applicable regulations. The Company does not engage in derivative transactions for speculative purposes.

## Schedules

b) Derivative policy/process and Hedge effectiveness assessment:

The Company has well defined Board approved Derivative Policy and Process document setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives along with having measurement, monitoring processes and controls thereof. The accounting policy has been clearly laid out for ensuring a process of periodic effectiveness assessment and accounting.

The Company has clearly identified roles and responsibilities to ensure independence and accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest Rate Derivative exposures. The overall policy, risk management framework for the Interest Rate Derivatives are monitored by the Risk Management Committee.

c) Scope and nature of risk identification, risk measurement, and risk monitoring:

The Derivative and related Policies as approved by the Board sets appropriate market limits such as sensitivity limits and value-at-risk limits for exposures in interest rate derivatives.

All financial risks of the derivative portfolio are measured and monitored on periodic basis.

### Quantitative disclosure on risk exposure in Forward Rate Agreement

A hedge is deemed effective, if it has a high statistical correlation between the change in value of the hedged item and the hedging instrument (FRA/IRF). Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account.

The tenure of the hedging instrument may be less than or equal to the tenure of underlying hedged asset/liability

### 18. Long term contracts

The Company has a process whereby periodically all long term contracts are assessed for material foreseeable losses. At the year end, the Company has reviewed and ensured that adequate provisions as required under any law/ accounting standard for material foreseeable losses on such long term contracts including derivative contracts has been made in the financial statements.

For insurance contracts, actuarial valuation of liabilities for policies in force is done by the Appointed Actuary of the Company. The assumptions used in valuation of liabilities for policies in force are in accordance with the guidelines and norms issued by the IRDAI and the Institute of Actuaries of India in concurrence with the IRDAI.

19. No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or any other person or entities, including foreign entities ('Intermediaries') with the understanding, whether recorded in writing or otherwise, that the Intermediary shall lent or invest in party identified by or on behalf of the Company (Ultimate beneficiaries). The Company has also not received any fund from any parties (Funding Party) with the understanding that the Company shall whether, directly or indirectly lent or invest in other persons or entities identified by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

### 20. Code on Social Security, 2020

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified. The Company is awaiting further developments on this to evaluate further.

### 21. COVID-19

In light of the COVID-19' pandemic outbreak, its continuous effect and information available up to the date of approval of these financial statements, the Company has assessed the impact of pandemic on its assets, including valuation and impairment of investments, liabilities including policy liability and solvency position. Based on the evaluation, the Company carries:

- Adequate impairment provisions on the investments to an extent necessary and
- Excess Mortality Reserve (EMR) of ₹ 550,000 thousands as at the Balance Sheet date for potential adverse mortality expected due to pandemic. This reserve is over and above the policy level liabilities calculated based on the applicable IRDAI regulations and based on our current expectation of extra claims to be received in the future, both of which are certified by the appointed actuary.

The Company has also assessed its solvency position as at the Balance sheet date and is at 176% which is above the prescribed regulatory limit of 150%. Further, based on the Company's current assessment of the business operations over next one year, it expects the solvency ratio to continue to remain above the minimum limit prescribed by the Insurance regulator. The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements. The Company will continue to closely monitor any material changes to future economic conditions.

Note: During the year ended March 31, 2019 the company had classified its investment in IL&FS Ltd. as NPA, owing to the default of interest payment on one of the Non-Convertible Debentures (NCD's) held in Unit Linked Funds by the issuer IL&FS Ltd.

The additional provision in FY 2021-22 is recognised due to maturity of bonds with corresponding impact of reversal in Fair value change account, and hence have neutral impact on Revenue account.

## Management Report

### 8. Overall Risk Exposure and Mitigation Strategies

Enterprise Risk Management is embedded into the day to day business/strategic decisions at HDFC Life. It enables risks to be identified, assessed, controlled and monitored consistently, objectively and holistically. The company has a Risk Management Team in place guided by the Company's core Risk Management Committee, Risk Management Council and Senior Management to develop and implement risk assurance practices on a pan-organisation basis. The mitigation strategy with respect to various risks as covered under the current Risk Management framework is:

#### a) Insurance Risk

Due to its inherent nature of business, the Company exposes itself to a large number of risks. The risks may relate to expenses it incurs in carrying on its business, mortality and morbidity rates and persistency of its policyholders.

**Expense Risk** - The Company seeks to minimise its expense risk by the use of stringent expense control mechanism. The company also conducts its experience analysis regularly to ensure corrective action can be initiated at the earliest opportunity and that the assumptions used in reserving are in line with experience.

**Mortality and Morbidity Risk** - The Company seeks to minimise mortality and morbidity risks by diversifying its business portfolio, adhering to appropriate underwriting norms, intensive monitoring of the retention limits and diversification of the risk through reinsurance arrangements with financially sound reinsurers.

**Persistency Risk** - The Company analyses all the assumptions used in product pricing and calculation of embedded value and ensure that the same is in line with the actual experience. Also, strategic measures and initiatives are undertaken to ensure that the persistency ratios remain healthy. The Company uses a combination of proactive and reactive interventions to manage the persistency risk. The interventions include sending communication via different media like email, mailers, SMS to customers, reminders and telephonic interaction with customers, and visits to customers.

The Company seeks to minimise potential impact of all insurance risks by an on-going monitoring, including review of assumptions, of insurance risk experience, implementation of appropriate controls, and adjusting its products, processes and plans accordingly.

#### b) Financial and Investment Risks - Market Risk, Credit Risk and Liquidity Risk

Investment Performance can be affected due to systematic risks which involves factors that affect the overall economy i.e. systemic risks and idiosyncratic risks which are specific to Investee Company or industry.

The Company seeks to manage its investment risk by ensuring investments are made in high quality assets, which matches its liabilities both by nature and term to the extent that is necessary and possible. The Company has constituted an Investment Committee, which acts as the policy making body for the investment operations. The Investment Committee periodically discusses the investment strategy, portfolio structures, performance of the portfolio and related issues and ensure that the company has well defined investment policies & processes to manage all the investment risks. All Regulatory and Internal norms are built in the Investment system, which monitors the Investment limits and exposure norms on real-time basis.

The market risk is mitigated by maintaining a desired mix between debt and equity subject to investment regulations by IRDAI, active asset management based on the ALM (Asset Liability Management) output along with asset and liability duration matching which limits impact of interest rate changes and actions taken to manage guarantee risk.

Credit risk or the risk of default of counter parties is sought to be mitigated by investing in securities with highest credit rating (i.e. lowest risks) in line with IRDAI guidelines as well as internal norms and reviewing changes in credit ratings. A separate internal Credit Council is in place to discuss and take decisions on above. The Company also seeks to deal with financially sound reinsurers.

Liquidity risk is monitored on a regular basis to ensure sufficient liquidity is maintained to meet short-term obligations by timing the cash inflows and outflows through cash flow matching and by maintaining an adequate mix of liquid assets.

### c) **Asset-Liability Mismatch Risk**

The risk arises due to mismatch caused by market factors, between the asset and liability cash flows.

The Company's ALM Policy lays down the Investment / Asset Allocation strategy to manage risks for various liabilities depending on their nature and tenure. The Company has constituted an internal Asset Liability Management Committee (ALCO) that monitors asset liability mismatch risk along with other market and insurance risks and it also formulates, implements and reviews strategies to achieve the stated financial objectives given the risk tolerance. The results, monitoring and mitigation strategies of ALCO are also placed at each Risk Management Committee of Board.

### d) **Operational Risk**

By nature of its business, the Company is exposed to various types of operational risk, which arise from different sources including inadequate record keeping, failures of systems and established controls, employee error, and internal/external frauds. The Company has implemented a robust operational risk management framework that focuses on the early recognition and proactive management of material operational risks. The Company also seeks to minimise the impact of the operational risks by regular monitoring of processes, systems and procedures, implementation of controls, adherence to malpractice matrix for controlling frauds and ensuring back-ups for both systems and data are maintained. Necessary insurance taken for all identified operational risk of the company are also reviewed at regular intervals.

The Company uses the following tools/activities to manage the various operational risks:

1. A well defined Fraud Risk Management Framework

2. Systematic periodic Operational Risk Reviews and operational risk loss data collection
3. Control reports
4. RCSA (Risk, Control and Self Assessment to identify risks and evaluate the controls)
5. Key Risk Indicators for proactive management of key functional risks
6. Incident management framework to monitor the near misses and plug loopholes in the system
7. Process level risk assessment at the pre launch stage of critical processes
8. BCMS (Business Continuity Management System) Governance Procedure
9. Outsourcing risk management policy
10. Information and Cyber security council

The Company takes a holistic approach to identify, measure, control and monitor fraud risk through the Fraud Risk Management Policy and has also formulated a separate vertical (Risk Monitoring & Control Unit, RMCU) to design and implement anti-fraud programs and controls which are effective in reducing negative incidents or events and negative surprises.

Business interruption risk also forms an integral part of operations risk. Since the Company can face a host of disasters that range from minor to catastrophic like the current epidemic fire/data center failure/earthquake etc. which can impact day-to-day operations, the Company seeks to minimise the risk by having a robust Business Continuity Plan (BCP) in place to manage such business interruption risks. Disaster recovery site has been set up to carry critical processes in adverse scenario. Business continuity drills are carried on a regular basis for critical processes and outsource partners to manage business interruption risks.

The Company has a well defined information security policy including areas of cyber security that ensures all information assets are safeguarded by establishing comprehensive management processes throughout the organisation.

## Management Report

### e) Compliance Risk

Sound compliance management process and information systems with a strong control culture have proven effective in managing compliance risk. Accountability & authority for compliance are clearly defined and enforced. Compliance tracker is maintained by the compliance department to manage timelines that are of regulatory nature. All regulatory reporting are published on periodic basis to the relevant stakeholders and timely submission of the reports due is ensured. Appropriate controls and systems are implemented to identify compliance problems and assess performance. The Company also has in place a self-assessment compliance Mechanism which is to be adhered by all departments.

### f) Strategic Risk

Strategic risk is associated with an organisation's mission and future business plans. Detailed analysis is conducted every year to gauge changes in macro-economic factors, government policies and regulatory environment. In addition, movement on these parameters are discussed with the Board every quarter along with the management's point of view and recommended action plan. In addition to this, the Life Council and IRDAI share the organisation's view point on steps to increase life insurance penetration, reduce impact of regulatory changes. Emerging risks and ESG compliance have also been given additional focus in last few years.

The Internal audit department performs regular risk based audits and reports the findings to the Audit Committee on regular basis. The Company's internal auditors review the processes, systems and procedures regularly. Reports of the auditors and the updates by risk management team as well as the actions taken are reported to the Audit Committee and Risk Management Committee of the Board respectively.

Internal Financial Controls: The Company has institutionalised a robust and comprehensive internal control mechanism across all the major processes. The internal audit, in addition to providing assurance on compliance to policies, procedures, regulations, processes etc., also tests and reports on adequacy and operating effectiveness of internal financial controls over financial reporting. The statutory auditors provide an audit opinion on adherence to Internal Financial Controls.

### 9. Operations in other Countries

The Company has a liaison office in Dubai which primarily engages in marketing and promotional activities. The Company has a 100% wholly owned foreign subsidiary 'HDFC International Life and Re Company Limited' incorporated in Dubai under the DIFC (Dubai International Finance Centre) Companies Law on January 10, 2016 to carry out life reinsurance business. The amount of capital for this subsidiary is invested outside India and in foreign currency and hence the company is exposed to currency risk.

### 10. Ageing of Claims

The trend of average claims settlement time for the current year and last 5 preceding years, from the day all necessary documents are submitted to the Company till cheque/NEFT payment is initiated, are as follows:

Years	Average time taken for claim settlement (No. in days)
FY 2021-22	3
FY 2020-21	5
FY 2019-20	4
FY 2018-19	4
FY 2017-18	5
FY 2016-17	5

For linked and traditional business details of claims registered and settled are attached as Annexure "A" and the details of claims registered and not settled are attached as Annexure "B"

### 11. Valuation of Investments

Given below is the basis as to how the values, as shown in the Balance Sheet, of the investments and stocks and shares have been arrived at, and how the market value thereof has been ascertained;

#### I. Real estate - investment property

Land or building or part of a building or both held to earn rental income or capital appreciation or for both, if any, rather than for use in services or for administrative purposes is classified as "real estate investment property" and is valued at historical cost, subject to revaluation, if any. Revaluation of the real estate investment property is done at least once in three years. Any change in the carrying amount of the investment property is recognised in Revaluation Reserve in the Balance Sheet. Impairment loss, if any, exceeding the amount in Revaluation Reserve is recognised as an expense in the Revenue Account or the Profit and Loss Account.

## II. Debt securities

### a) Non-linked business, non-unit reserve investments and shareholders' investments

Debt securities, including Government Securities are considered as "held to maturity" and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount, if any, over the period of maturity/holding, on a straight line basis.

Money market instruments like Commercial Papers, Certificate of Deposit, Treasury Bills (T-Bills) and - Tri-Party Repo (TREPS) are valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.

Investments in Alternative Investment Fund (AIF) and Security Receipts are valued at cost, subject to provision for diminution, if any, in the value of such investments determined separately for each individual investment. Fixed Deposits and Reverse Repo are valued at cost.

### b) Linked business

Debt securities, including Government Securities are valued at market value, using Credit Rating Information Services of India Limited ('CRISIL') Bond Valuer/CRISIL Gilt Prices, as applicable.

In case, the equity shares, equityETFs InvITs and REITs are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. the BSE are considered.

If equity shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the equity shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Equity shares lent under the Securities Lending and Borrowing scheme (SLB) continue to be recognised in the Balance Sheet as the Company retains all the associated risks and rewards of these securities.

In case the equity ETFs, InvITs and REITs are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the equity ETFs are valued at the latest available NAV. In case of InvITs and REITs where the market quote is not available for the last 30 days, the InvITs shall be valued at the latest NAV (not more than 6 months old) as published by the Infrastructure Investment Trust/Real Estate Trusts.

Unrealised gains or losses arising on such valuations are accounted for in the Revenue Account.

Listed equity shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI, are valued at historical cost, subject to provision for diminution, if any, in the value of such investment determined separately for each individual investment.

Listed equity ETFs, InvITs and REITs that are not regularly traded in the active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI, are valued at the latest available NAV.

Bonus entitlements are recognised as investments on the 'ex-bonus date'. Right entitlements are accrued and recognised on the date the original shares (on which the right entitlement accrues) are traded on the stock exchange on the 'ex-rights date'.

## IV. Preference Shares

### a) Non-linked business, non-unit reserve investments and shareholders' investments

Redeemable preference shares are considered as "held to maturity" and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount.

Listed preference shares other than redeemable preference shares are valued at fair value, being the last quoted closing price on the Primary Exchange i.e. National Stock Exchange of India Limited (NSE) at the Balance Sheet date. In case, the preference shares are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. BSE Limited (BSE) are considered.

If preference shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the preference shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous

day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising due to changes in fair value are recognised under the head 'Fair Value Change Account' in the Balance Sheet.

Unlisted preference shares (other than redeemable preference shares) and listed preference (other than redeemable preference) shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by Securities Exchange Board of India (SEBI) are valued at historical cost, subject to provision for diminution in the value, if any, of such investments determined separately for each individual investment.

#### **b) Linked business**

Listed preference shares are valued and stated at fair value, being the last quoted closing price on the Primary Exchange i.e. the NSE at the Balance Sheet date. In case, the preference shares are not traded on the Primary Exchange on the Balance Sheet date, the closing price on the Secondary Exchange i.e. the BSE are considered.

If preference shares are not traded either on the Primary or the Secondary Exchange on the Balance Sheet date, then the price at which the preference shares are traded on the Primary or the Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation, provided such previous day price is not more than 30 days prior to the Balance Sheet date.

Unrealised gains or losses arising on such valuations are accounted for in the Revenue Account.

Listed preference shares that are not regularly traded in active markets and which are classified as "thinly traded" as per the guidelines governing Mutual Funds for valuation of thinly traded securities laid down by SEBI, are valued at historical cost, subject to provision for diminution in the value, if any, of such investment determined separately for each individual investment.

### **V. Mutual funds**

#### **a) Non-linked business, non-unit reserve investments and shareholders' investments**

Mutual fund units held at the Balance Sheet date are valued at previous business day's Net Asset Value (NAV) per unit. Unrealised gains or losses arising

due to changes in the fair value of mutual fund units are recognised under the head 'Fair Value Change Account' in the Balance Sheet.

#### **b) Linked business**

Mutual fund units held at the Balance Sheet date are valued at previous business day's NAV per unit. Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Revenue Account.

### **VI. Interest Rate Derivatives**

Interest rate derivative (IRD) contracts for hedging of highly probable forecasted transactions on insurance contracts and investment cash flows in life, pension and annuity business, are accounted for in the manner specified in accordance with 'Guidance Note on Accounting for Derivative Contracts' issued by the Institute of Chartered Accountants of India (ICAI) in June 2015 effective from FY 2016-17 and IRDAI Investment Master Circular issued in May 2017.

At the inception of the hedge, the Company documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter at Balance Sheet date.

The Forward Rate Agreement (FRA) contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from the SEBI approved rating agency and present value of contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till FRA contract settlement date, at applicable INR-OIS rate curve.

The portion of fair value gain/loss on the IRD that is determined to be an effective hedge is recognised directly in appropriate equity account i.e. 'Hedge Reserve' under the head 'Credit/(Debit) Fair Value Change Account' in the Balance Sheet and the portion of IRD fair value gain/loss that gets determined as ineffective hedge or ineffective portion of effective hedge, basis the hedge effectiveness assessment is recognised in the Revenue Account.

## Management Report

The accumulated gains or losses that were recognised directly in the Hedge Reserve are reclassified into Revenue Account, in the same period during which the income from hedged forecasted cash flows affect the Revenue Account (such as in the periods that income on the investments acquired from underlying forecasted cashflow is recognised in the Revenue Account). In the event that all or any portion of loss or gain, recognised directly in the Hedge Reserve is not expected to be recovered in future periods, the amount that is not expected to be recovered is reclassified to the Revenue Account. Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account. Costs associated with derivative contracts are considered as at a point in time cost.

# Embedded Value Results

## 1. Basis of Preparation

The embedded value has been determined by following a market consistent methodology, as per the methodology and principles set by the Institute of Actuaries of India in Actuarial Practice Standard 10 (version 1.02) (APS 10). The scope of APS10 is limited to disclosures made as part of an Initial Public Offer (IPO) and does not apply to any public disclosures of embedded value results made after the IPO. Therefore, the disclosures are not intended to be in full compliance with APS10.

1. Post overrun total VNB for Individual and Group business

2. The tax rate is assumed to increase from 14.56% to 25% and hence all the currently taxed profits in policyholder/shareholder segments are taxed at a higher rate.

## 3. Methodology

The IEV represents the present value of shareholders' interests in the earnings distributable from the assets allocated to the business after sufficient allowance for the aggregate risks in the business. The value of future new business expected to be written after the applicable valuation date is excluded from the IEV.

The IEV set out in this Report consists of the following components:

- Adjusted net worth ("ANW")
- Value of in-force covered business ("VIF")

## Embedded Value Results

### 3.1 Adjusted Net Worth

Adjusted net worth is the value of the net assets of the shareholders as shown in the financial statements, adjusted to bring assets in the shareholder fund to their market value. Assets in the shareholder fund is considered at market value for the calculation of ANW.

ANW is further divided into the following two components:

- Free surplus (FS), representing the market value of any assets allocated to, but not required to support, the in-force business at the valuation date. Free Surplus is available for immediate distribution to the shareholders; and
- Required capital (RC), representing the amount of assets attributed to the covered business over and above that required to back liabilities for covered business, whose distribution to shareholders is restricted. Distribution of Required Capital to shareholders is restricted as it is used to support the solvency capital requirements of the business.

### 3.2 Value of in-force business (VIF)

The value of in-force covered business (VIF) is determined as:

- Present value of future profits from the in-force business
- Less Time value of financial options and guarantees
- Less Frictional costs of required capital
- Less Cost of residual non-hedgeable risks
- Plus Market value adjustment in respect of assets in policyholder funds

The VIF includes the value of anticipated renewals of the in-force business, including any foreseeable variations in the level of renewal premiums, but excludes any value relating to future new business. The VIF also includes an allowance for reinsurance ceded.

#### 1.1 Present Value of future profits (PVFP)

Present value of future profits ("PVFP") represents the present value of projected post taxation shareholder attributable cash flows from the in-force covered business and the assets backing the associated liabilities.

The shareholder attributable cashflows also include transfers to shareholders from the funds for future appropriations ("FFA") in participating funds based on projected policyholder bonuses declared from the participating business FFA.

#### 1.2 Frictional cost of capital (FCoC)

The VIF allows for a deduction in respect of the frictional costs of holding required capital ("FCoC"). FCoC is calculated as the present value of the taxation and investment costs on shareholder attributable assets backing the required capital, after allowing for the capital support provided by the participating business FFA and subordinated debt.

#### 1.3 Time value of financial options and guarantees (TVFOG)

The TVFOG represents the allowance for time value of embedded financial options and guarantees within the covered business. PVFP allows for the intrinsic value of financial options and guarantees within the covered business. TVFOG has been calculated using stochastic techniques where necessary.

#### 1.4 Cost of residual non-hedgeable risk (CRNHR)

The CRNHR represents an allowance for the cost of residual non-hedgeable risk not already allowed for in the TVFOG or the PVFP. The CRNHR makes allowance for:

- asymmetries in the impact of the risks on shareholder value; and
- risks that are not allowed for in the TVFOG or the PVFP (e.g. operational risk).

CRNHR also makes an allowance for uncertainty in the best estimate of shareholder cash flows as a result of the non-hedgeable risks.

### Willis Towers Watson Opinion on Embedded Value as at March 31, 2022

Willis Towers Watson Actuarial Advisory LLP (“Willis Towers Watson”, “we”, “us” or “our”) has been engaged by Exide Life Insurance Company Limited (“Exide Life”, “the Company”, “you” or “your”) to review the embedded value prepared by Exide Life as at March 31, 2022 (“embedded value results”).

#### Scope of work

Our scope of work covered:

- A review of the methodology and assumptions used to determine the embedded value results; and
- A review of the results of Exide Life’s calculation of the embedded value results.

#### Opinion

Willis Towers Watson has concluded that the methodology and assumptions utilised by Exide Life to compute embedded value results and as reviewed by us comply with the standards issued by the Institute of Actuaries of India within the Actuarial Practice Standard 10 (“Indian Embedded Value Principles”) in all critical respects, and in particular that:

- the economic assumptions used are internally consistent and result in the projected cash-flows being valued in line with the prices of similar cash-flows that are traded on the capital markets;
- the operating assumptions have been set with appropriate regard to the past, current and expected future experience;
- the Required Capital has been determined and projected on the basis of minimum regulatory capital target of 150% of the Required Solvency Margin and has been assessed from a shareholder’s perspective;
- allowance has been made for the Cost of Residual Non-Hedgeable Risks; and
- for participating business, the assumed bonus rates and allocation of profit between policyholders and shareholders are consistent with projection assumptions, established Company practice and local market practice.

Willis Towers Watson has also performed high-level reasonableness checks on the results of the calculations by reviewing aggregate cashflows for each significant line of business, together with a number of further checks on the models, processes and results of the calculations performed by Exide Life. We have not, however, undertaken detailed checks of all models and actuarial processes involved. On the basis of this high-level review, Willis Towers Watson has confirmed that no material issues have been discovered that have a material impact on the aggregate embedded value as at March 31, 2022.

#### Results

Embedded Value is a measure of the consolidated value of shareholders’ interest in the life insurance business.

Exide Life has determined its embedded value based on a market consistent methodology. Under such an approach, embedded value is calculated as the present value of shareholders’ interests in the earnings distributable from the assets allocated to the business after allowance for the aggregate risks in the business.

Market consistent embedded value determined by Exide Life as at March 31, 2022 is set out in the table below:

**Table 1: Embedded Value as at March 31, 2022**
